FINANCIAL COMMISSIONER'S OFFICE.

CIRCULAR No. 1 of 1890.

FINANCIAL COMMISSIONER'S OFFICE,

(No. 37.)

Dated Lahore, 3rd January 1890.

To

ALL REVENUE OFFICERS IN THE PUNJAB.

Classification of secure and insecure areas.

Orders of Government of India regarding the classification of agricultural land.

IN a circular No. 58 R., issued by the Revenue and Agricultural Department of the Government of India on October 12th, 1882 (see Supplement to *Gazette of India*, dated 14th October 1882), the Local Government was invited to undertake certain measures therein detailed, for the classification of agricultural lands according to the measure of their security from failure and for the adoption of a scale of suspensions graduated according to the degree of the calamity necessitating them. The result of the enquiries thereupon instituted has been to show that certain modifications in the original instructions are necessary in order to attain in this Province the object aimed at by the Government of India in the circular above mentioned, and the attention of all supervising revenue officers is directed to the orders below which are now issued by the Financial Commissioner with the approval of the Local Government.

Maps to be submitted showing areas under fluctuating assessment.

2. In the first place it will be necessary for each Collector to submit as soon as possible a map showing the area in his district which is under a purely fluctuating system of assessment. Separate maps should be prepared for each tahsíl, in which the fluctuating system is in use; the scale of these maps should be not less than 4 inches to the mile, the boundaries of all estates and assessment circles in the tahsíl should be delineated, and the estates or portions of estates subject to fluctuating assessment should be accurately indicated on the map by a blue wash. These tahsíl maps should be accompanied by a small scale map of the district (the outline maps supplied by the Director of Land Records should be used if possible) showing neatly the boundaries of tahsíls and assessment circles and indicating roughly by a blue wash the area subject to fluctuating assessment: *in districts where there is no fluctuating assessment, this map will be submitted alone, showing tahsíl and assessment circle boundaries only.*

What is included under fluctuating assessment.

3. For the purposes of the maps mentioned in the last paragraph, a *fluctuating assessment* must be held to include *all forms of fluctuating* assessment in which an annual adjustment of the land revenue is necessitated by the fluctuating nature of the cultivation. It would, for instance, include such semi-fluctuating forms of assessment as that which is employed in the upland well-lands of Jhang and that which is known as the "daman" system in Dera Ismail Khan. And it would for the present purpose include all lands to which alluvion and diluvion rules apply, but care should be taken not to show whole

estates as subject to these rules when the rules apply to a portion only. If in any district difficulty is felt as to the precise classification of particular areas, the Collector should refer the point to the Commissioner for orders. Where different systems of fluctuating assessment are in force in the same district, the Collector should roughly distinguish these in his letter forwarding the maps, but no attempt should be made on the maps themselves to classify in further detail the area subject to fluctuating assessment.

Unassessed waste lands to be separately shown.

4. In both the tahsíl and district maps all uncultivated areas of any description which pay no land revenue such as bírs, forests, &c., should be marked off and coloured with a green wash.

Maps of secure and insecure areas to be submitted by Settlement Officers and certain selected officers.

5. The action indicated in the preceding three paragraphs is required of Collectors generally throughout the Province and the maps called for should be submitted by the 1st of February. The portion left uncoloured in these maps will, however, have to be sub-divided so as to show the tracts therein which are secure, and those which are not secure, from failure by colouring with a red wash the tracts which are insecure.

This is a matter which will require very careful handling, and the work will be entrusted for the present to Settlement Officers only and to certain other officers to whom a separate communication to this effect will be addressed. Settlement Officers should submit their maps as their several settlements approach completion, and the other officers charged with this duty should send in their maps as soon as they feel themselves in a position to undertake the classification with sufficient accuracy.

Principle on which the classification of secure and insecure areas should be made.

6. In order to indicate the principles on which areas under fixed assessment should be divided into "secure" and "insecure," the following observations and instructions are published for guidance. The main object of the proposed classification is to ascertain and set apart all insecure areas for which some systematic scheme regulating the grant of suspensions may be prepared. In carrying out the preparation of such a scheme, the officers preparing it will as is noted further on in this circular have to bear in mind the broad distinction between suspensions and remissions due to such agents as drought and periodic floods and those due to wholly unforeseen causes, such as hailstorms, flights of locusts, and the like. These latter are liable to occur in all tracts alike and will be subject to the general instructions which may from time to time be issued on the subject. They will, therefore, be left out of consideration in preparing the classification according to security or insecurity which is required in the circular. By secure tracts are meant tracts very unlikely to require suspensions or remissions on account of drought, floods and the like, and by insecure tracts are meant those which are, from time to time, likely to require suspensions or remissions from these causes.

Special considerations affecting the classification of estates in the Punjab.

7. It was suggested in the circular of the Government of India, quoted in paragraph 1, that "all estates of which 50 per cent. and upwards of the cultivated areas is secured by irrigation and which is not liable to failure in time of drought" should be classed as "secure." But no hard-and-fast rule of this sort can be safely followed in this Province.

The fact that a large part of the cultivated area of an estate is irrigated from wells or by inundation canals or hill torrent water does not in the Punjab prove that the need of granting suspensions will not from time to time arise. It has also been suggested that the classification might follow the boundaries of existing assessment circles. But while these are a useful guide they cannot always be adopted. It will be found that the same assessment circle in many cases includes estates falling under different categories, the line of distinction being based not upon the percentage of the cultivated area irrigated, but on the character of the irrigation, the system of cultivation, the quality of the soil, the degree of the variation in rainfall to be expected, and, in fact, broadly on all the facts which make clear the distinctions in the degree to which the net profits of estates vary from harvest to harvest. If, after paying regard to all these factors and drawing upon his own special or local knowledge, the investigating officer is of opinion that the general and ordinary rules of suspension and remission will not in any, but very exceptional circumstances, have to be applied to any tract, estate, or part of an estate, he will class these as secure. As different officers will have different opinions as to the manner of applying this criterion, it will be advisable in the interests of uniformity if officers of neighbouring districts put themselves in communication with each other with a view to securing results which shall be as far as possible based on the same principles. In making the above classification the unit shall ordinarily be the estate; but in cases where there is a broad line of distinction in physical circumstances between different parts of an estate as, for example, is often the case in estates situated on the banks of rivers, the estate may be sub-divided in the classification as circumstances may require. The insecure areas should be coloured red and the secure areas left white.

Instructions regarding preparation and submission of maps.

8. All maps submitted in accordance with the preceding paragraphs of this circular should be on good tracing paper and should be prepared entirely in English. They should be forwarded through the Commissioner to the Director, Land Records, and, after approval by the latter officer, five copies will be made of which the Collector, Commissioner, and Director, Land Records, will each retain one ; and two will be forwarded to the Financial Commissioner.

Scheme for the working of suspensions to be submitted.

9. The officers mentioned in paragraph 6, when forwarding the maps described in paragraph 5, will submit at the same time through the Commissioner to the Financial Commissioner a carefully considered scheme for the working of suspensions occasioned by drought, periodical floods and similar causes. In the case of Settlement Officers care should be taken that these proposals are submitted in sufficient time to admit of orders being passed on them before the conclusion of the settlement. It is not intended that such arrangements should be considered in the light of an agreement between Government and the people, or as an integral part of the settlement, but rather as a guide in the future revenue administration of the district. It is never possible to guarantee in any tract during any particular season of distress the presence of an officer previously acquainted with its special conditions in such seasons ; and the scheme of suspensions prepared under these orders should be on record to assist officers who may have been recently posted to the areas under consideration in their revenue administration at such times.

Instructions regarding the preparation of schemes regulating suspensions.

10. Efforts have already been made in some parts of the Province, as for instance in the Marwat Tahsil of the Bannu District, to supply local officers with some rough guide of this description indicating that in certain tracts failure of rain for a certain number of seasons should be held a just ground for suspensions, and failure of rain for a certain larger number of seasons be held a just ground for remissions.

In the reports now to be submitted something of the same kind, but if possible more definite and minute, is required, and the question of remissions must be put altogether on one side. In paragraphs 16—18 of the Circular of Government of India referred to above, proposals were made for the adoption of a scale of suspensions under which, when the proportion of crops that had failed in a particular area in any harvest was known, it should also be known what proportion of the revenue ought to be suspended. These proposals must be taken as indicating rather the object to be kept in view than the method by which that object can be reached in the Punjab.

No automatic adjustment of suspensions to the degree of failure of crops could be made to work here. But, at the same time, it seems possible and is certainly desirable for the guidance of officers in those parts of the Province, where suspensions are most frequently required, to draw up a general or exemplar scale of suspensions suitable to the known condition of each tract. Such a scale must be founded upon a consideration of the past revenue history and the present revenue circumstances of the special tract to which it is to apply. In submitting their reports, therefore, the officers entrusted with this work should furnish, as forming the grounds for their proposals, a brief note on these subjects.

Summary of instruction.

11. The operations, then, which this circular prescribes are :—

(i) the early preparation by all District Officers of maps to show the area in each district which is under fluctuating assessment ;

(ii) the division by Settlement Officers and certain other officers of the area not so assessed into "secure" and "insecure" tracts ;

(iii) the submission by these officers of a proposed scale to be adopted as a general guide in granting suspensions in the insecure tracts together with a note explaining the grounds of their proposals.

The maps will, as noted above, be submitted through the Director of Land Records ; the proposals for graduated suspensions will be submitted to the Financial Commissioner.

Classification of estates as secure or insecure to be noted by Settlement Officers in English village note books.

12. Settlement Officers should enter in the English note book of each estate the class in which they have placed it.

CIRCULAR No. 2 OF 1889.

FINANCIAL COMMISSIONER'S OFFICE,

(No. 163).

Dated Lahore, 8th January 1890.

To

ALL DEPUTY COMMISSIONERS IN THE PUNJAB.

Enjoins careful check of monthly Returns of External Land Trade by officer in special charge of Trade Registration.

THE Financial Commissioner observes that a great deal of inconvenience has been caused to this office and also to the Government of India, in the Finance and Commerce Department, by entries in the monthly Returns of External Land Trade, the inaccuracy of which should have been easily detected in the District Offices before despatch of the Returns.

2. Thus in one district the *Import* Return for April 1889 shewed nearly 5,000 maunds, value six lakhs of rupees, of European cottons, and 7½ thousand maunds, value four lakhs of rupees, of Indian cottons. These figures, it afterwards appeared, should have been shewn under Exports, and the Financial Commissioner thinks the improbable nature of the original entries should have been recognized in the District Office and the figures should have been verified. Similar remarks apply to another recent case where a Return from the same district showed under asafœtida figures that should have been shown under wheat. Such errors as these are, the Financial Commissioner finds, only too common in the Statements received by him. The carelessness that leads to them is inexcusable, and the Financial Commissioner looks to the Deputy Commissioners concerned to see that accurate statistics are in future prepared and submitted. In future, the Financial Commissioner will be obliged to take serious notice of lapses of this kind, which can hardly occur if the officer in special charge of the Trade Registration work subjects the returns before despatch to a careful and intelligent scrutiny.

By order, &c.,

D. C. JOHNSTONE,

FINANCIAL COMMISSIONER'S OFFICE.

CIRCULAR No. 5 OF 1890.

FINANCIAL COMMISSIONER'S OFFICE,

(No. 377).

Dated Lahore, 15th January 1890.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS
IN THE PUNJAB.

Enjoins strict adherence to the principles laid down by Punjab Government for dealing with applications from indebted land-holders for grant of loans, &c.

ATTENTION is invited to the orders of the Punjab Government contained in the annexed extracts regarding applications from indebted land-holders to have their estates taken under the Court of Wards or to be granted loans by Government, and it is requested that the principles contained therein may be strictly adhered to.

By order, &c.,
D. C. JOHNSTONE,
Junior Secretary to Financial Commissioner, Punjab.

(Translated).

Extract from paragraph 2 of Punjab Government No. 1616 of 22nd June 1885, to the address of the Junior Secretary to the Financial Commissioner, Punjab.

It will be observed that, so far as the law is concerned, there is nothing to prevent the free application of Section 35, clause (*g*) of the Punjab Laws Act; but, while admitting that such application might be the means of saving families of influence, the Lieutenant-Governor thinks that the provisions of the law in question should not be resorted to unless there is some important interest, revenue, political or other, to be served in the particular case.

Circular No. $\frac{1}{16}$, dated 14th January 1888.

From—C. L. TUPPER, Esquire, Offg. Secretary to Government, Punjab,
To—All Commissioners and Deputy Commissioners in the Punjab.

I AM desired by the Lieutenant-Governor to communicate the following remarks on the subject of granting loans to Jágírdárs and other leading men to enable them to extricate themselves from debt.

2. These loans, in the opinion of Mr. Lyall, tend to encourage extravagance by greatly diminishing the fear of utter ruin and by greatly improving the credit of the recipient in the market. In this way they do harm, not only to the individual, but also to the class. It should, therefore, be understood that Government does not favour the system except in very special cases.

3. More objectionable still is the grant of a second loan to a family which, having once obtained one, has again, without some really valid excuse, got into debt. In fact, the Lieutenant-Governor wishes to lay down the principle that such second loans should not be made, exceptions being admitted only in the case of men of most exceptional present merit and usefulness.

4. Further, the Lieutenant-Governor is pleased to direct, with the approval of the Governor-General in Council, that no proposals for the grant of loans shall be entertained or even discussed with indebted chiefs or notables unless the preliminary sanction of Government shall first have been obtained.

Endorsement by the Punjab Government.
No. 17, dated 14th January 1888.

COPY forwarded to Senior Secretary to the Financial Commissioner, Punjab, for the information and guidance of the Financial Commissioner.

Copy of a letter No. 620, dated 25th November 1889, from H. C. FANSHAWE, Esquire, Offg. Secretary to Government, Punjab, and its Dependencies, to D. C. JOHNSTONE, Esquire, Junior Secretary to Financial Commissioner, Punjab.

IN continuation of paragraph 4 of my letter No. 313, dated 5th June 1889, I am directed to address you on the subject of the intervention of the Court of Wards under Section 35 (*g*) of the Punjab Laws Act, 1872, and the entertainment of applications of persons desirous to be declared under that section incapable of managing their own estates.

2. The principles on which applications of the kind are to be decided were laid down by Sir C. Aitchison on paragraph 2 of Mr. Tupper's letter No. 1646, dated 22nd June 1885, where it was stated that the provisions of Section 35 (*g*) are not to be resorted to unless there is some important interest, revenue, political, or other, to be served in the particular case, and this view was endorsed by Sir James Lyall in Mr. Young's letter No. 1121, dated 2nd June 1887, and in His Honor's Review of the Revenue Administration Report for the year 1886-87.

3. But it often happens that the provisions of the law contained in Section 35 (*g*) of the Punjab Laws Act are taken advantage of by embarrassed land-owners and notables, who in seeking the assistance of the Court of Wards are possessed with a hope that the re-establishment of their affairs may be expedited by the grant of a Government loan. In many such cases the estate is so hopelessly involved as to render the grant of a loan the sole expedient to avert ultimate ruin, and to the adoption of this expedient Government in a great measure stands committed by its action in undertaking through the Court of Wards the management of the estate. In regard to the granting of loans to Jagírdárs and other leading men to enable them to extricate themselves from debt, the policy of Government was explained in the Circular of the Punjab Government, No. 1 of 14th January 1888, where it was observed that such loans, in His Honor's opinion, tend to encourage extravagance by greatly diminishing the fear of utter ruin and by greatly improving the credit of the recipient in the market; and it was directed in that Circular that no proposals for the grant of loans should be entertained or even discussed in any formal way with indebted Chiefs unless the preliminary sanction of Government shall first have been obtained. The Lieutenant-Governor has now come to the conclusion that a similar procedure should be laid down in regard to applications made by persons wishing to be declared incapable of managing their own estates, because, as above explained, the acceptance of such applications frequently commits Government to the grant of loans similar in character and attended with the same evil consequences as are mentioned in the Circular of January 1888. I am accordingly to request that Deputy Commissioners may be instructed not to entertain or formally discuss with the persons concerned applications for the intervention of the Court of Wards in cases of the kind referred to in this letter without the preliminary sanction of the Commissioner first obtained, and that, if in any such case ultimate resort to a Government loan seems probable, reference should be made to Government for decision as to whether the political or other considerations involved are of such special importance as to admit of an exception being made to the general rule of policy applicable to these cases.

CIRCULAR No. 6 OF 1890.

FINANCIAL COMMISSIONER'S OFFICE,

(No. 378.)

Dated Lahore, 15th January 1890.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS
IN THE PUNJAB.

Instructions for guidance of District Officers in the matter of furnishing Prices Current to Military Officers.

A REPRESENTATION having been made to this office in December 1888 by a Deputy Commissioner, to the effect that Commissariat and other Military Officers were in the habit of making upon the District Office demands connected with the certifying of prices which are not warranted by any orders of Government, the Financial Commissioner considered the existing rules on the subject of the furnishing of prices current, and made a reference to Government on the subject, extract from which will be found appended to the present Circular. (Appendix A.) The Punjab Government, having consulted the Military Department of the Government of India, has approved generally of the views held by the Financial Commissioner, and has intimated that instructions in accordance with them (except in one particular) might be issued by this office. It will be seen that the Financial Commissioner proposed that the price currents of camping-grounds should be prepared monthly, but in the opinion of Government it will be necessary that they should be prepared only during the camping season when troops are on the march; and in the case of the less frequented camping-grounds it will be sufficient to prepare the price current on intimation being received of the passage of troops. The Transport Regulations do not require that such price lists should be prepared monthly, but only in connection with indents received and supplies furnished. Subject, therefore, to the above modification, the principles in Appendix A to this Circular should be strictly adhered to.

2. The Military Department has meanwhile instructed all Military Accounts Officers to dispense with market price quotations in the case of all articles other than those for which under the Transport Regulations they are expressly entitled to demand such quotations; and Deputy Commissioners should decline to furnish price currents or to give any information regarding prices in the case of such articles.

3. For convenience sake the various price currents that Deputy Commissioners have to supply to the Commissariat Department are summarised below. The forms, for easy reference, have been printed in Appendix B of this Circular:—

I.—Monthly city prices current in Commissariat form 143, which is the same as Form A with Financial Commissioner's Circular No. 57 of 1876.

Paragraph 1424, Army Regulations, India, Volume V.

II.—Price currents in Commissariat form 145 of purchases for British troops at encamping-grounds which are paid for by the State.

Paragraph 155, Army Regulations, India, Volume X, Part II, and Note III of Appendix XI.

III.—Price currents in Commissariat transport form 16 of grain at encamping-grounds with quantity purchased for public cattle proceeding with troops.

Paragraph 158, Army Regulations, India, Volume X, Part II.

IV.—Price currents in Commissariat transport form 16 of fodder at encamping grounds with quantity purchased for elephants proceeding with or without troops. For this the authority is a letter addressed* in 1875 to the Local Governments.

* No. 2/266 of 11th May 1875, from Government of India, Revenue, Agriculture and Commerce Department.

4. Of the above II, III, and IV, it will be observed, are only required when supplies are not effected by contract; and II and III only apply to the case of troops marching, and IV to the rare occasions of elephants marching without troops. With regard to I, the Financial Commissioner desires to explain that, though there is a standing rule that rates fixed by Commissariat Officers in their annual and half-yearly lists of rates should if possible not exceed price current quotations, yet it has been now arranged that the Military Account Department will not look for price current quotations in support of the rates given in the said annual and half-yearly rates lists.

By order, &c.,

D. C. JOHNSTONE,

(*Translated.*) *Junior Secretary to Financial Commissioner, Punjab.*

APPENDIX A.

The Deputy Commissioner of——— asks for distinct orders as to the extent to which he is to respond to the requisitions of the Military authorities requesting him to certify prices.

Colonel Wace considers that the orders of Government do not warrant a Civil Officer's undertaking to respond to all inquiries of this nature. On the contrary, the orders of the Government of India appended to Circular 40 of 1877 shew that Civil Officers are required to confine their action in this respect within the limits prescribed by Government's orders.

The question divides itself into two heads: (i) monthly price currents for cities; (ii) price currents for camping-grounds.

(i) *Monthly price currents for cities.*—The form, contents, and method of preparing these are prescribed by the orders of the Government of India enclosed in Circular 57 of 1876. The instructions contained in that Circular should, the Financial Commissioner thinks, be strictly adhered to; any Military officer, who requires a copy of any months' price current, should be given a copy free of charge; but, if he asks that other articles be added to it than those prescribed by the Government's orders, he should be informed that his request cannot be complied with. A price current should be drawn up under these orders for every town, where troops are cantoned.

(ii) *Price currents for camping-grounds.*—The orders on this subject will be found at paragraphs 156 and 176 of the Military Regulations. They are not so precise as could be desired; but it will be seen (paragraph 156) that the Civil Officer's duty of supply is strictly limited to certain stated articles; and it follows that it is also his duty to certify the value of those articles. The Financial Commissioner does not think it can properly be inferred from paragraph 176, that it is also his duty to certify the value of all other articles. It is within Colonel Wace's knowledge that applications under this head are made to Civil Officers with which they cannot reasonably be expected to comply, and there is no authority for the assumption that a Civil Officer can properly be called on to certify all prices.

The proper course for the Deputy Commissioner to pursue is, the Financial Commissioner thinks, this. (I) He should give to each Tahsíldár a list of the camping-grounds, where price lists are to be kept, and also a list of the articles to be included in those price lists. (II) He should not include in these lists any articles other than those which can be included in an indent for supplies (paragraph 156 of Regulations) or in the monthly price list (Circular 57 of 1876). (III) He should see that the Tahsíldár revises these price lists once a month sending a copy for record in the Deputy Commissioner's Office.

If inquiry is made as to prices at any camping-ground, a copy of the price list for the month at that camping-ground should be furnished. If application is made that the prices of articles not included therein be certified, the Deputy Commissioner should decline to do so.

The habit of looking to the civil authorities to certify the prices of all the wide list of articles included in army supplies is one that should, the Financial Commissioner thinks, be kept within bounds. The civil authorities are not in a position to certify prices other than those of a few main raw provisions. When the list is indefinitely extended, a Civil Officer has no real power to check the reports of his subordinates, and a door is opened for very considerable laxity of practice; if not, for corrupt collusion between the Military Supply agents and the Chaudhris and petty officials.

FINANCIAL COMMISSIONER'S OFFICE,

Dated Lahore, 18th January 1890.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS
IN THE PUNJAB.

Assignments granted for services in 1848 or 1857 not to be resumed at the death of the assignee, if there are heirs, without the previous sanction of the Financial Commissioner.

APPENDED hereto will be found correspondence regarding the treatment of the claims of heirs of deceased jagírdárs whose assignments, having been granted for services performed in 1848 or 1857-58, become liable to resumption under the terms of the grants. The Financial Commissioner requests that resumption in such cases may not be carried out without his previous sanction.

By order, &c.,

D. C. JOHNSTONE,

Junior Secretary to Financial Commissioner, Punjab.

(*Translated*).

No. 101, dated 20th August 1889.

From—H. C. FANSHAWE, Esquire, Junior Secretary to Government, Punjab,
To—The Junior Secretary to the Financial Commissioner, Punjab.

Punjab Government No. 192 S. of 6th July 1889, to Government of India, Foreign Department.
Government of India, Foreign Department, No. 3142 I. of 6th August 1890, to Punjab Government.

WITH reference to your letter No 35 of 7th June last, and the letter of the Commissioner of the Ráwalpindi Division, No 1256 of 17th May 1888, copy enclosed, I am directed to forward, for the information of the Financial Commissioner, a copy of the correspondence noted on the margin, and to request that the local officers may be called upon to report whom they consider the fittest member of the family of the late Sardár Bal Singh in the Gujránwála District to be chosen as recipient of the jágír of Rs. 250 per annum which has been sanctioned for the family by the Government of India.

2. The Lieutenant-Governor thinks that it will be desirable to circulate the correspondence in the present case, and to direct that assignments of land revenue by way of limited grants on account of services in 1848 and 1857-58 shall not be resumed without reference to the Financial Commissioner, and I am to invite the opinion of the Financial Commissioners upon this suggestion.

No. 1256, dated Ráwalpindi, 17th May 1888.

From—Colonel R. PARRY NISBET, C.I.E., Commissioner and Superintendent, Ráwalpindi Division,
To—The Offg. Secretary to Government, Punjab.

Commissioner's No. 1010, dated 24th April 1888.
Deputy Commissioner, Gujránwála's No. 102, dated 14th May 1888.

I HAVE the honor to return the petition of Wadháwa Singh, son of Bal Singh, received under cover of your No. 282, dated 23rd ultimo, and to forward for your information a copy of the correspondence marginally noted, which contains my opinion and the Deputy Commissioner of Gujránwála's report on the merits of Wadháwa Singh's petition.

2. Wadháwa Singh is the brother of Jamadár Jagat Singh of the Xth Bengal Lancers, referred to in your No. 3, dated 17th January last, to address of Junior Secretary to the Financial Commissioner. Both brothers desire to obtain release of the resumed jágír held by their brother Anokh Singh.

No. 1010, dated 24th April 1888.

From—Colonel R. PARRY NISBET, C.I.E., Commissioner and Superintendent, Ráwalpindi Division,
To—The Deputy Commissioner, Gujránwála.

I HAVE the honor to forward for report a petition presented to Government by one Wadháwa Singh, son of the late Bal Singh, who held a jágír of Rs. 400 in the village of Karak, Gujránwála Tahsíl. This jágír was sanctioned for Bal Singh and his lineal male heir for one generation in Government of India No. 684, dated 18th February 1860, which was communicated to you by Commissioner Lahore's No. 57, dated the 10th March 1860. Bal Singh appears to have died some time in 1865, and on enquiry made from your office (see Mr. Brandreth's No. 50, dated

3rd February 1865) it was ruled that the jágír should go to the eldest son only (Punjab Government No. 171, dated 4th March 1865), and it should accordingly have gone to Anokh Singh, the Zaildár of Chuliarkána. It appears, however, from your office No. 502, dated 26th October 1882, that at that time all three brothers shared the jágír between them, and the question then asked was whether the share of a brother named Jiwan Singh, who had died, should lapse or be continued to the survivors. The Financial Commissioner distinctly pointed out in his No, 9130, dated 4th December 1882 (see Commissioner, Lahore's No. 546, dated 9th idem), that the jágír should be enjoyed by the eldest brother alone, and should lapse on his death. Anokh Singh is dead, too, it seems from your letter under acknowledgment, and his jágír lapses to Government. Wadháwa Singh's petition for a sanad is therefore incomprehensible, except on the explanation that he has been erroneously continued in possession. I request that this point may be enquired into and reported on. If a mistake has been made, it must be rectified forthwith and the jágír resumed.

No. 102, dated 14th May 1888.

From—Lieut-Colonel R. BARTHOLOMEW, Deputy Commissioner, Gujránwála,

To—The Commissioner and Superintendent, Ráwalpindi Division.

WITH reference to his No. 1010, dated 24th ultimo, has the honor to return petition of Wadháwa Singh and to state that on receipt of Secretary to Financial Commissioner's No. 9130, dated 4th December 1882, Anokh Singh was constituted sole jágírdár, and his name was entered in Máfi Register and Misl as directed. No mistake was made in carrying out these orders, and now on Anokh Singh's death the jágír has been resumed.

2 The Financial Commissioner in the above-quoted letter remarked "the other brothers presumably only share in the jágír at his (Anokh Singh's) pleasure." Doubtless Wadháwa Singh has thus shared, and now thinks of making some sort of a claim.

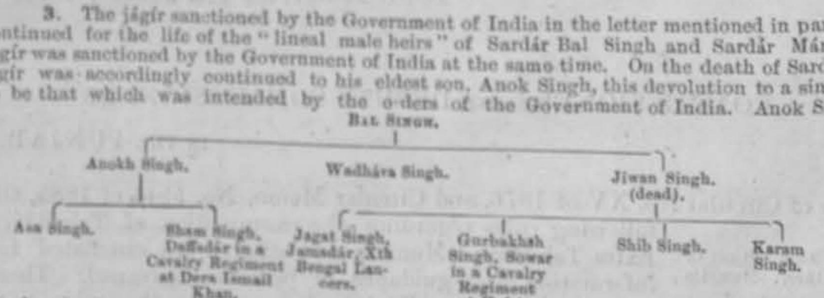
No. 3142 I., dated Simla, 6th August 1889.

From—The Junior Under-Secretary to the Government of India, Foreign Department,

To—The Secretary to Government, Punjab.

IN reply to your letter No. 192 S., dated the 6th July 1889, I am directed to say that the Governor-General in Council is pleased to sanction the continuance of Rs. 250 out of the jágír of Rs. 400 granted to the late Resaldár Bal Singh of Hodson's Horse to a selected representative member of the family.

No. 192 S., dated 6th July 1889.



From—H. C. FANSHAWE, Esquire, Junior Secretary to Government, Punjab,

To—The Secretary to the Government of India, Foreign Department.

I AM directed by the Lieutenant-Governor to solicit the favourable consideration of the Governor-General in Council on behalf of the representative of the family of Resaldár Bal Singh of Hodson's Horse, to whom a jágír of Rs. 400 per annum was granted in the letter of the Government of India in the Foreign Department, No. 684, dated 18th February 1860.

2. It will be seen from the letter of this Government No. $\frac{61}{770}$, dated 13th February 1860, in which the recommendations for the grant of this jágír were contained, that Bal Singh was a man of note and repute among the Sikhs and held under their dynasty a jágír of the value of Rs 2,520. In the war of 1848-49 he espoused the national cause and in consequence lost his estates, but was granted a pension of Rs. 300 per annum. In 1857 he proffered his services to Sir R. Montgomery, and joined the body of Horse raised by Major Hodson in July of that year. In proposing a reward for the Sardár's loyal service in Major Hodson's regiment it was then remarked that it was due to the death of his Commanding Officer that the Resaldár's services had not previously been recognized, and it was added that in Sir R. Montgomery's opinion rewards in such cases were desirable on political grounds in order to show the Sikh Sardárs and soldiery that the British Government was as prompt to reward good services as to punish those who failed in their duty.

3. The jágír sanctioned by the Government of India in the letter mentioned in paragraph 1 above was to be continued for the life of the "lineal male heirs" of Sardár Bal Singh and Sardár Mán Singh, on whose behalf a jágír was sanctioned by the Government of India at the same time. On the death of Sardár Bal Singh in 1865 the jágír was accordingly continued to his eldest son, Anok Singh, this devolution to a single heir being interpreted to be that which was intended by the orders of the Government of India. Anok Singh has recently died and petitions have been received from his brother Wadháva Singh and his nephew Jagat Singh for the continuance of the jágír. A pedigree table of the descendants of Resaldár Bal Singh is given in the margin. It will be seen that Asa Singh, who is a zaildár in the Gujránwála District, is the head of the family, and that three of the grandsons of the Resaldár are at present in the Native Army.

4. In certain cases which came before him as Financial Commissioner Sir James Lyall recorded an opinion that it was good policy to maintain in perpetuity grants for services rendered at the Mutiny, on the ground that such grants remain as evidence of the result of loyalty and have a considerable political effect. In one of these at least the reward was continued by the Government of India (*vide* letter of the Foreign Department, No. 28 T. R. of 24th April 1879), but the general question of the policy of maintaining such grants was not specially raised. To these views Sir James Lyall still adheres, and is strongly of opinion that in the case of the small jágír or muáfi grants, which were made to the best of the Sikh and Punjabi Muhammadan Native Officers in 1859 and 1860 in recognition of their having obeyed our call and joined our standard at a critical time and distinguished themselves as soldiers, it would generally be good policy and well worth the money to continue the grant or part of it to a selected heir, provided that the family has continued to show itself loyal and well disposed and ready to do service. The money value of these grants is small, but the value put on them is great, as in this country of peasant proprietors they give the family which holds them a high social status in the eyes of the rural population, and mark

it out for recognition by the officers ot Government. It is these land-holding families, better off though they be than the mass of the peasantry, but still only what may be termed yeomen proprietors, which furnish the men who are the flower of the present Cavalry and Infantry of the Indian Army, and who make the best Native Officers. They have some ancestral military traditions and feelings of gentility, and also a certain small amount of capital. They serve more for the love of the thing than for profit, and eventually retire and live on their lands. It is in Sir James Lyall's opinion a great object to keep alive the spirit which induces men of this class to serve in our Army, and which might die out any day. The continuance of small grants in their villages to the heirs of the men who joined our standard in 1857 and then much distinguished themselves will be one way of keeping alive this spirit and of encouraging future generations to follow the examples if similar critical times ever occur again.

When these particular grants were made in 1859 and 1860, Sir James Lyall can remember that they were not thought particularly generous either by the recipients or by District Officers in the Panjab. But the time was not then favourable for proposing very liberal grants : the expenses of the Mutiny had put the finances of the country into great disorder, and the number of proposals for rewards which were being pressed on the Government of India was of course very great, and large grants of territory had been made to Native Chiefs who had aided the Government and some large jágírs had been granted to other leading men. The consequence was that the Panjab Government felt constrained to pitch its proposals for these Native Officers at a very moderate scale, and this is a strong reason, the Lieutenant-Governor thinks, for dealing with the resumption of these grants with some degree of consideration.

5. For the reasons stated above, His Honor desires to recommend for the consideration of the Government of India the continuance of Rs. 250 out of the Rs. 400 of this small jágír to a selected member of the family. As above stated, the members of the family who have petitioned for continuance of the jágír are Wadháwa Singh and Jagat Singh, and the petition of the latter was forwarded with a very strong recommendation of the Officer Commanding the Xth Bengal Lancers. In view, however, of his position as head and local representative of the family, His Honor would be inclined to continue the assignment in favour of Asa Singh, the eldest son of Anokh Singh, but further inquiry will be made on this point before the representative member of the family is selected. The family does not own any large property in land, the land revenue which the late Anokh Singh paid having been less than Rs. 30 per annum.

10. Candidates will be required to obtain one-third of the marks allotted to each subject, and half of the total maximum of marks allotted to all the subjects which they are required to take up. Provided that an official candidate (that is to say, any person holding the *substantive* appointment of Tahsíldár, Munsif, Extra Tahsíldár, Náib-Tahsíldár, or Deputy Superintendent of Settlement) who obtains two-fifths of the total marks in each of two subjects, and three-fifths of the total in both, but fails in any other subject, may be passed, at the discretion of the Central Committee, subject to re-examination in any subject in which he has failed.

NOTE.—In every case in which the Central Committee proposes to pass a candidate under this proviso, a qualification report will be required from his superior officer.

11. In making the calculation under the above Rule 10, the marks allotted to any question which a candidate is not required to answer shall first be deducted from the maximum number of marks allotted to the subject.

12. In addition to the subjects specially fixed for Tahsíldárs, Munsifs, Extra Tahsíldárs, Náib-Tahsíldárs and Deputy Superintendents of Settlement any Examinee may answer the questions set for Assistant Commissioners and Extra Assistant Commissioners in any of the subjects prescribed for their Departmental Examination and may present himself for examination in Treasury ; and if he fulfils the requirements of the rules† for such Examination, he shall be held to have passed in accordance therewith.

The papers will be set by the Examiners appointed under the Rules for the conduct of the Departmental Examination of Assistant Commissioners and Extra Assistant Commissioners, but in all cases, including those in which Examinees elect to be examined under the conditions of the preceding rule, the answers will be examined and marks awarded by Examiners nominated by the Judges of the Chief Court and Financial Commissioners, and approved by Government.

14. The Examiners will submit their awards of marks to the Secretary of the Central Committee of the Examination for Assistant Commissioners and Extra Assistant Commissioners, and the final decision as to the passing of candidates will rest with the Central Committee.

15. (*i*) No books or writing of any kind may be brought by the candidates in the Examination room, except as in sub-rule (*ii*) below. Any transgression of this rule, or any copying from the papers of another candidate, will vitiate the examination of both parties concerned, and will render them liable to have their names struck off the register of approved candidates, or, if holding an appointment under Government, to be dismissed.

(*ii*) The first paper in (*a*) Criminal Law, (*b*) Civil Law, and (*c*) Revenue may be answered with the aid of books. The candidates shall not refer to any manuals, guides, or books with indexes, but merely to the text of the Acts and the Rules thereunder in which they are examined. The questions in these papers shall not be such as can be answered by copying a passage from a book ; but shall be designed to test the practical knowledge of the candidates, and shall be confined as much as possible to cases arising in ordinary practice, facts of probable occurrence being stated and the candidate being required to find and apply the law bearing on them.

16. The answers to the questions must be written leaving one-third margin and on one side of the paper only, and numbered according to the numbers of the questions. Writing paper will be supplied to the candidates in the examination room, and no paper shall be brought into the room by candidates, but each candidate must bring his own pens and inkstand.

17. The candidate shall, before delivering his answers to the officers conducting the examination, page and sign each of the sheets containing his answers, and write on them the subject and number of the paper.

Letter to the Chief Commissioner of Assam, No. 6348, dated 28th November 1888.

Letter from the Chief Commissioner of Burma, No. 383—5 A., dated the 13th September 1889.

RESOLUTION.—IN its Proceedings for February 1887, the Government of Bombay, on the advice of the Legal Remembrancer, decided that those portions of the salaries of certain mechanics employed in cotton mills in Ahmedabad which under agreement were paid by their employers in England, were liable to taxation under Act II of 1886 (part IV of the Second Schedule).

2. In January 1888, the Chief Commissioner of Assam asked whether commissions earned by managers and assistants of tea concerns in India, but paid in England and not remitted to India, are liable to income tax.

3. In September 1889, the Chief Commissioner of Burma transmitted for orders representations, made on behalf of certain members of the American Baptist Mission and the employés of the Irrawaddy Flotilla Company, praying to be exempted from the taxation of such portion of their income as was not paid in British India. In the case of the Missionaries, it was contended that their income or salary was derived from donations in the United States, and that the portion of it paid in that Country never reached India. In the case of the employés of the Irrawaddy Flotilla Company, it was urged that the portion of their salaries paid in Scotland should be exempted.

4. These cases have now been fully considered, and the Governor-General in Council is advised that in all of them the incomes are liable to the tax under the terms of Section 3 (5) of the Act, since they accrue and arise (though they may not be received) in British India. The definitions of "salary" and "income" given in the Act no doubt overlap each other, but there is no reason why the one word should not be construed as supplementing rather than restricting the other; and although salary includes commissions, perquisites, and profits of an employment only when received in British India, yet if profits accrue or arise in British India to any person resident in British India by reason of his employment, and such profits are not received in this country (as in the cases in question), they are taxable as "income" under Part IV, though, if received here, they would be taxable as "salary" under Part I of the Second Schedule to the Act.

5. The Governor-General in Council accordingly directs that the decision stated in the foregoing paragraph be acted upon in future by all local authorities.

ORDER.—Ordered, that the foregoing Resolution be communicated to all Local Governments and Administrations for information and guidance.

FINANCIAL COMMISSIONER'S OFFICE.

CIRCULAR No. 9 OF 1890.

(No. 637.)

FINANCIAL COMMISSIONER'S OFFICE,

Dated Lahore, 29th January 1890.

To

ALL COMMISSIONERS IN THE PUNJAB.

THE following instructions are issued in supersession of those contained in Circular No. 41 of 1889, which is hereby cancelled.

Instructions for treatment of sale proceeds of waste or other lands not belonging to irrigation works, but directly benefited by their construction.

2. In accordance with Government of India Public Works Department Irrigation Resolution No. 53 A. I., dated 20th June 1889, a copy of which is appended, the Financial Commissioners request that Commissioners will obtain from District Officers and submit statements in the form annexed showing the sums realized by the sale of Government waste or other Government lands not belonging to, but directly benefiting by, the construction of Major Irrigation Works in the Punjab, namely :—

The Western Jumna Canal.

The Bári Doáb Canal.

The Sirhind Canal.

The Lower Sohág and Pára Canal.

The Sidhnái Canal.

The Chenáb Canal.

The Swat Canal.

3. The Punjab Government has intimated that the statements in the case of the Western Jumna and Bári Doáb Canals will relate to the half year ending 30th September 1889. It would be difficult to bring to book earlier transactions as regards these old established works, and it has therefore been decided that all sales effected before 1st April 1889 should be excluded. In the case of other canals all sales from the date of the opening of the work to 30th September 1889 will be shown.

4. The statements should not contain any entry of lands which have been specially purchased for the works of any canal project and subsequently sold.

5. The statements required by paragraph 3 of this Circular should be submitted at a very early date, as those forwarded in compliance with Circular No. 41 of 1889 cannot be utilized for the preparation of the return required by Government.

6. In future, statements in the same form will be submitted on the 1st April and 1st October of each year. The entries in these will relate solely to the transactions of the preceding half year.

By order, &c.,

J. M. DOUIE,

Senior Secretary to Financial Commissioner, Punjab.

Simla, the 20th June 1889.

Treatment of the sale proceeds of waste or other lands not belonging to Irrigation works, but directly benefited by their construction.

Read the following papers :—

Proceedings of the Government of Madras, Public Works Department, Nos. 332-333 I., dated 8th June 1888.

Letter from the Examiner of Public Works Accounts, No. 355 A., dated 26th November 1888, received with endorsement No. 135 I., dated the 19th December 1888, from the Accountant-General, Public Works Department.

RESOLUTION.—A question has recently arisen regarding the extent to which credit may be allowed in the accounts of Major Irrigation works for the sale proceeds of waste or other lands not belonging to the works, but directly benefited by their construction.

2. In the estimates of certain irrigation works the anticipated realizations from such sales have been shown as Receipts on Capital Account or as reduction of the direct capital expenditure on the works in question; and the estimates have received the approval of competent authority. From a reconsideration of the question it, however, appears to the Government of India that it is incorrect to credit such sale proceeds to the direct capital account of the project (more especially in these particular works where the capital is provided from loan funds). The land is sold under the orders of the Civil Department, and the proceeds should be credited to Land Revenue.

3. As it is right, however, that the work in question should receive credit in some way or another for receipts which would not have occurred but for their construction, the Government of India is pleased to rule that when cases of the above nature occur the works may be credited annually in the Administrative Accounts as *Indirect Revenue*, with four per cent. on the amount realized by the sale of such lands.

4. In cases where credits have already been afforded to the Direct Capital Account of Irrigation Works the amounts should be written back in accordance with these orders.

5. It should be clearly understood that these orders do not refer to lands which have been purchased specially for the works of any project and which may subsequently be sold.

The Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab.
The Chief Commissioner, Burma.
The Agents to the Governor-General for Rájpútána and Bilúchistán.
The Accountant-General, Public Works Department.

ORDER.—Ordered, that a copy of this Resolution be forwarded to the Local Governments, Administrations and officers noted in the margin, for information and guidance.

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By Dr. GEO. WATT, C. I. E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the [illegible] that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 619 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India R30 and in England 3 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 8 annas per volume.

For copies bound in half calf or half morocco, R6 and 8 shillings respectively, will be charged extra for the whole sets.

*** *No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be R45 in India, and 5 guineas in England, exclusive of packing and postage.*

An official candidate, that is to say, a person holding the *substantive* appointment of Munsiff, Tahsíldár, Extra Tahsíldár, Náib-Tahsíldár or Deputy Superintendent of Settlement, may be passed at the discretion of the Central Committee if he obtains two-fifths of the total number of marks in each subject and half of the total number of marks in all subjects.

3. An official candidate who obtains two-fifths of the total in each of two subjects and three-fifths of the total in both, but fails in the third subject, may be passed at the discretion of the Central Committee, subject to re-examination in the subject in which he has failed.

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By Dr. GEO. WATT, C. I. E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable and mineral,—each product being treated after a uniform plan, the paragraphs of which give the scientific, Vernacular and European names, habitat or source, history, properties and uses, both chemical and industrial, trade statistics, markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important Vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the Vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 669 pages; Volume III is in course of preparation, and will contain the letters D, E, F and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the Vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, R8 and 8 shillings, respectively, will be charged extra for the whole sets.

*** *No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.*

CIRCULAR No. 12 OF 1890.

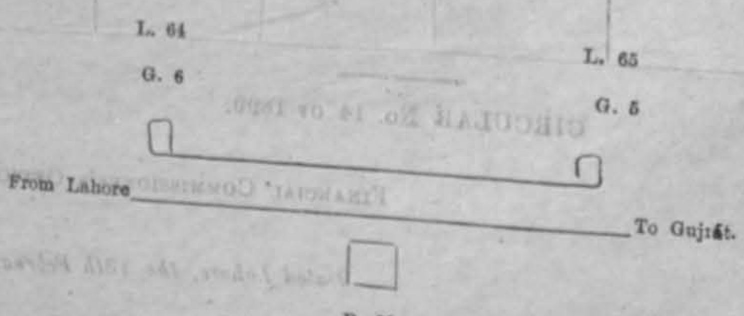
FINANCIAL COMMISSIONER'S OFFICE,

(No. 903.)

Dated Lahore, 8th February 1890.

To

ALL REVENUE OFFICERS IN THE PUNJAB.



Enjoins entry of certain topographical details in village maps.

THE Deputy Superintendent of the Survey of India has expressed a desire that certain topographical details should be entered in village maps in order to make them more useful for the purposes of that Department. It is therefore requested, to meet these requirements, that in all future village surveys the following topographical details shall be given:—

(1) The exact position and shape of the area under buildings forming the actual village site should be shown by interior dotted lines on the village map, within the field number of the village site as given under the directions contained in foot-note No. 16 to the Khatauni form in the Patwári and Kánúngo Rules under the Land Revenue Act. Those instructions are to be strictly carried out, and the delineation of the actual buildings by dotted lines is to be clearly understood to be a purely topographical detail, and no separate number is to be given to it—*see* paragraph 105 of the Mensuration Manual.

(2) Bridges crossing canals and large distributaries should also be shown in the village maps by dotted lines, and without separate numbers except in cases already provided for in the Mensuration Manual.

(3) The position of permanent milestones along public roads and of milestones and bench-marks along canals should in future also be shown in village maps by the following conventional signs in common use in the Survey Department:—

It should be clearly understood that these directions in no case are to supersede those contained in the Land Revenue Act, or in the rules under that Act, or in the Mensuration Manual. They are extra topographical details, to be shown at the request of the Survey Department, and their insertion by the Patwárís will effect a material saving in expense.

CIRCULAR No. 15 of 1890.

Financial Commissioner's Office,

(No. 1,026).

Dated Lahore, the 13th February 1890.

To

All Revenue Officers in the Punjab.

Summary of the provisions of Act XVI of 1887, relating to ejectment of ordinary tenants-at-will.

In this office Circular No. 41, dated 7th November 1887, special attention was invited to the changes in the Tenancy Law of the Province effected by Act XVI of 1887. Paragraphs 7 to 10 of that circular dealt with the innovations on previous practice in the matter of the ejectment of tenants-at-will introduced by the new law. Subsequently it was pointed out in Circular Memo. No. 48 of 1888, that a notice for the ejectment of a tenant of the class described in section 42, clause (*b*), of the Act, that is to say, of an ordinary tenant-at-will holding from year to year, could only be served between the first day of the agricultural year, *viz.*, 16th June and the 15th November.

2. From entries, found in the Quarterly Revenue Business Statement No. II under heads 6, 19, 20 and 22, it would appear that this subject is still not fully understood by the subordinate revenue officers, and the following summary of the provisions of the Act, so far as it deals with the ejectment of ordinary tenants-at-will, may be of use.

3 (*a*). A notice of ejectment can only be served by a revenue officer in the five months between 16th June and 15th November [section 41 and section 45 (2)].

(*b*). A suit in a Revenue Court by a tenant to contest his liability to be ejected must be filed within two months from the date of the service of the notice [section 45 (5)]. The very latest date in any agricultural year on which such a suit can be filed is therefore 15th January.

(*c*). If a tenant fails to institute such a suit the landlord can apply for an ejectment order [section 45 (5)].

(*d*). If compensation is found to be due the revenue officer is bound to stay ejectment until it is paid (section 71).

(*e*). Save in accordance with the provisions of section 47 (see also paragraph 7 (2), Circular 41 of 1887), an order of ejectment issued in consequence of a notice served under section 45 (1) can only be executed between 1st May and 15th June (section 47).

4 (*a*). It follows that head 22 of Revenue Business Statement II, so far as it relates to applications under section 43 for services of notices of ejectment [section 76 (*m*)] on ordinary tenants-at-will, should always be blank in the quarter ending 31st March and should usually be blank in the quarter ending 30th June. The only entries in it should relate to the second fortnight in June and these will ordinarily be very few in number. But entries may occur relating to notices of relinquishment [section 36 (2)] and of intended transfer, &c. (sections 53 and 54). Where any entries are made under head 22 in these two quarters brief explanatory remarks should be added. As irregularities in the matter of serving notices of ejectment occasionally take place Deputy Commissioners should scrutinize the entries and satisfy themselves that no notices have been served in the seven months between 16th November and 15th June. A note to this effect should be made on the statement.

(*b*). Cases under heads 19 and 20 are instituted by the application of the landlord for an ejectment order made under section 45 (5) when a tenant has failed to institute a suit to contest his liability to ejectment within two months of the date on which the notice of ejectment was served. No such application filed in one agricultural year can remain as a pending case after its close, *i. e.*, after 15th June. The entries in columns 4 and 5 for the quarter ending 30th June should therefore always be the same, but Deputy Commissioners should see that applications are not allowed to fail through lapse of time by any carelessness on the part of their subordinates.

(*c*). It follows from paragraph 3 (*a*) and (*b*) that no suit under head 6 of Business Statement II can be instituted between 16th January and 15th June. When any fresh suits are shown as instituted in the quarters ending 31st March and 30th June, a brief explanatory note should be entered stating whether the cases were instituted within the prescribed limit of time or not.

By order, &c.,

J. M. DOUIE,

Senior Secretary to Financial Commissioner, Punjab.

(*Translated.*)

CIRCULAR No. 16 OF 1890.

FINANCIAL COMMISSIONER'S OFFICE,

(No. 1078.)

Dated Lahore, 15th February 1890.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS

IN THE PUNJAB.

Training of Junior Assistant Commissioners in Revenue work. Particular attention drawn to—

THE Financial Commissioners consider that there is some reason to fear that, since the appointment of an Extra Assistant Commissioner as Revenue Assistant in each district, fewer opportunities have been given to Junior Assistant Commissioners of acquiring a practical knowledge of the ordinary revenue work of a district. The deputation of

Assistant Commissioners for a short Settlement training affords them an insight into certain important branches of revenue work, but there are many necessary parts of district administration which cannot be learned in this way.

2. The Financial Commissioners therefore wish to remind Deputy Commissioners that the fact that Revenue Extra Assistant Commissioners have been appointed in no way absolves them from the duty of giving a thorough revenue training to Junior Assistant Commissioners who may be posted to their districts. Attention is invited to the remarks on the subject contained in Barkley's Directions for Collectors, paras. 10 to 15, which are about to be reproduced in No. 20 of the Volume of Consolidated Circulars, now under consideration, and to paras. 10 to 12 of Circular 43 of 1885. The presence of a Revenue Extra Assistnt Commissioner in a district is no reason for not putting a qualified Assistant Commissioner in special charge of the revenue work of a tahsíl or other portion of a district in the manner contemplated in paras. 14 and 15 of the Directions for Collectors.

By order, &c.,

Senior Secretary to Financial Commissioner, Punjab.

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By Dr. GEO. WATT, C. I. E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable and mineral,—each product being treated after a uniform plan, the paragraphs of which give the scientific, Vernacular and European names, habitat or source, history, properties and uses, both chemical and industrial, trade statistics, markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important Vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the Vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the Vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, R6 and 8 shillings, respectively, will be charged extra for the whole sets.

*** *No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.*

PART III.

Notifications by Chief Court, Financial Commissioner, Accountant-General, &c.

CHIEF COURT.

BOOK CIRCULAR No. I—477.

To

ALL DIVISIONAL AND SESSIONS JUDGES, DISTRICT MAGISTRATES AND DISTRICT JUDGES IN THE PUNJAB.

Dated Lahore, the 21st January 1890.

Subject.

Supply of blank Registers for use in Civil and Criminal Courts, with printed headings and strongly bound, by the Central Jail, Lahore.

Arrangements for the supply of blank Registers for Civil and Criminal Courts from a Central Depôt.

IN accordance with instructions received from the Local Government, the Judges have arranged with the Inspector-General of Prisons to have blank Registers for the Civil and Criminal Courts supplied with printed headings and strong bindings from a Central Depôt to be maintained at the Central Jail, Lahore.

Description of Registers.

2. The Registers will be made of convenient sizes, and will have all the headings and columns printed and ruled. The paper used will be that known as country milled paper (Badámi) at Rs. 4-3-2 per ream, which is less bulky and better to write on than jail-made paper. The binding of all important Registers will be of card-board, with leather backs and corners; and of other Registers of *khárwa* cloth.

Price of Registers.

3. A scale of prices will be fixed by the Jail authorities in consultation with the Judges, and will be circulated hereafter.

Introduction of the new Registers from 1st January 1891.

4. In order to introduce the new system without causing unnecessary inconvenience or wasting the Registers now in use, it has been arranged that new Registers shall be supplied towards the close of the year 1890, and shall be brought into use on and from the 1st January 1891. Arrangements can accordingly be made to avoid having a stock of unused old Registers in hand at the close of the year 1890.

Submission of indents for Civil and Criminal Registers.

5. District Judges and District Magistrates, respectively, are requested to compile and submit indents for Civil and Criminal Registers for their own Courts and all Courts subordinate to them, and Divisional and Sessions Judges in respect of their own Courts only, by the end of June 1890. The number of pages contained in each Register to be supplied from the Central Jail, Lahore, will be seen from the schedule attached to the Court's letter No. 3861, dated the 11th October 1889, to the address of the Inspector-General of Prisons, a copy of which, together with a copy of the Inspector-General's reply, No. 3674, dated the 1st November 1889, and of this Court's further reply thereto, No. 4579, dated the 29th November 1889, will be found annexed to this circular. A perusal of this correspondence will fully explain the system about to be introduced.

Supply of specimen copies of the Registers.

6. In order further to assist officers in framing their estimates, the Superintendent, Central Jail, Lahore, will on or before 1st June 1890 supply specimen copies of Registers kept in stock as below:—

Civil and Criminal Registers relating to Divisional and Sessions Courts ...	to the Divisional and Sessions Judge of each Division.
All Civil Registers	to the District Judge of each district.
,, Criminal Registers ...	to the District Magistrate of each district.

Submission of indents direct to the Superintendent, Central Jail.

7. Divisional and Sessions Judges, District Magistrates and District Judges, respectively, will forward their indents for the year 1891 direct to the Superintendent, Central Jail, Lahore, on or before August 1st, 1890, and on or before the 30th September of each succeeding year. Supplementary indents may, in cases of urgent necessity, be submitted at any time during the year, provided that they are sent two months at least before the Registers indented for are required. While, however, supplementary indents will be complied with, the Superintendent, Central Jail, will be instructed to report to the Judges any officer who frames his annual indents so carelessly as to necessitate large or frequent supplementary indents. After the first year, at any rate, indenting officers should not find it necessary to resort largely to the expedient of supplementary indents.

Trial indents during 1890.

8. Should any Divisional and Sessions Judge, District Magistrate or District Judge desire to make a trial of the new Registers during the year 1890, small trial indents sent to the Superintendent, Central Jail, Lahore, after March 1st, 1890, will be complied with, but the Jail authorities will not be prepared to execute large orders prior to August 1890, and it is not intended that the new Registers should be generally introduced until the year 1891.

Submission of bills direct to indenting officers.

9. In regard to the adjustment of charges, the Superintendent, Central Jail, will submit bills direct to indenting officers, who will countersign and return the same. The amount will thereupon be recovered and debited to the officers concerned.

By order, &c.,

E. W. PARKER,

Registrar.

(Translated.)

No. 3861, dated Lahore, the 11th October 1889.

From—The Registrar, Chief Court, Punjab,

To—The Inspector-General of Prisons, Punjab.

Supply of Judicial Registers by the Central Jail.

I AM desired to acknowledge the receipt of your endorsement No. 2288, dated 8th July last, forwarding a copy of a letter from the Superintendent of the Central Jail, Lahore, relating to the supply of Judicial Registers for the Courts of the Punjab.

Description of binding.

2. In reply, I am to state that the *Badámi* paper being thin, it will be necessary to have binding (plain boards with leather corners and the rest of the board covered by a cheap dark paper, such as the ordinary marble paper used for binding) for all important Registers. The backs must be strong and flexible, as these Registers will have much wear and tear. For the less important Registers, *khárwa* covers will be sufficient.

Size of Registers.

3. All the Registers will not be of the same *size*, nor of the same number of pages; so that the cost will vary.

Forms rarely change.

4. The forms of Registers will vary rarely, but too large a stock should be avoided. Any alterations which it is proposed to make will be communicated to you before the end of December in the present year. Each district and court will require a certain number at the beginning of every year, and may, during the year, require a few extra Registers according to the quantity of work.

Probable requirements.

5. Judicial Circular CXLV and Appendix I of the Volume of Judicial Circulars, 3rd edition, gives a list and the form of the several Registers at present maintained by the courts, and the accompanying list shows probable requirements, the bulk and the kind of binding required for each, and approximately the number of copies which will be required by the courts.

Estimate only rough.

6. I am to add that the estimate shown in the accompanying list is not to be regarded as in any sense binding on the Court. It is a very rough estimate, and experience alone can enable you to decide upon the stock which should be kept up.

Submission of indents.

7. District Officers will be required to submit their annual indents by any date which you may fix as convenient. It will, of course, be open to them to submit supplementary indents from time to time during the year, though it is probable that after the first year or two they will be able to frame their annual estimates with sufficient accuracy to avoid many supplementary indents.

Supply of Registers before 15th December 1889.

8. The Judges would be glad to know whether you can arrange to supply all or any of these Registers before the 15th December, for next year, so that timely intimation may be given to the courts; otherwise they will be obliged to supply themselves with Registers locally according to the present system, and will only indent on the Jail Department for any Registers which may thereafter become necessary during the year 1890.

Suggestion as to the supply of a small number at first.

9. As the arrangement for supplying printed and bound Registers from the Jail Department is more or less of an experiment at present, and the time is short, it would perhaps be as well to make up only a small number of each kind of Register at once, and to supply one copy of each Register to every district with instructions to introduce the Registers gradually, and to submit small trial indents during 1890, and full annual indents for 1891, these latter indents being timed to reach the Jail Department by 30th June 1890, and the supply to be made by 1st December 1890.

Submission of indents direct.

10. Instructions will, if you approve, be issued for indents for Civil Judicial forms to be submitted by District Judges and for Criminal Judicial forms by District Magistrates direct to your office. Divisional and Sessions Judges will similarly submit their indents.

Price of Registers to be fixed.

11. A list of prices of Registers should be made out and supplied through this office to all courts in the Province. The prices should include the whole of the Jail charges for the finished article, and should be fixed in consultation with the Judges.

Presentation of bills.

12. Your Department will, the Judges understand, send bills to the indenting officers direct for countersignature in the usual way, the charges being recovered from them.

13. As soon as the Judges are in possession of your final wishes on all these points, instructions will be issued.

14. An early reply will oblige.

E. W. PARKER,

Registrar.

No. 3674, dated the 1st November 1889.

From—The Inspector-General of Prisons, Punjab,
To—The Registrar, Chief Court, Punjab.

I HAVE the honor to acknowledge receipt of your letter No. 3861, dated 11th ultimo, regarding supply of Judicial Registers for the courts in the Punjab, and with reference to paragraph 8 to state that, as the time for printing and binding the Registers required during 1890 is very short, it will be advisable for the courts to obtain their supply for the year locally as heretofore, and to submit indents for the Registers required during 1891 *direct* to Superintendent, Central Jail, Lahore, by the 30th June 1890, for compliance by 1st December 1890.

2. As regards paragraph 9 of your letter under acknowledgment, the Superintendent, Central Jail, Lahore, reports that he is prepared to make up a small supply of Registers at once, and to supply a copy or more (or as many as can be got ready) to each District Judge. District Magistrate and Divisional and Sessions Judge.

Small trial indents during 1890 may also be sent for compliance.

3. As it is stated in paragraph 3 of your letter that the Registers will not all be of the same size, I beg you will furnish me with a sample sheet of *each* Register so as to allow of a complete list of their prices being made out for the approval of the Judges in compliance with paragraph 11 of your letter.

4. As before stated, indents should be sent *direct* to the Superintendent, Central Jail, Lahore, for compliance, the annual indents being sent *not* later than 30th June.

5. Adjustment of the charges for Registers supplied will be made in the manner described in paragraph 12.

No. 4579, dated the 29th November 1889.

From—The Registrar, Chief Court, Punjab,
To—The Inspector-General of Prisons, Punjab.

IN continuation of my No. 3861 of 11th October 1889, and with reference to paragraph 3 of your letter No. 3674 of 1st November 1889, I am directed to send you a sample sheet of each Register, in order to enable you to judge of the size of the various Registers and to make out a list of prices. These samples are not to be taken as being accurate in the detailed heading entries which should be taken from pages 588 to 615 of the Volume of Judicial Circulars, 3rd edition.

2. It is possible that some modification in the size of some of the Registers may be found necessary, and the sample sheets now sent are not samples of sizes fixed by the Judges. So long as sufficient space is left in the various columns for the entries to be made therein, the size may be altered. A proof copy of each Register might be sent to the Judges for final approval before being printed.

3. It would be a good plan if sample Registers were made up and supplied as soon as possible as follows:—

(1) One copy of each Register marked for *Divisional and Sessions Judges* in the list given at pages 574 to 585 of the Volume of Judicial Circulars to the Divisional and Sessions Judge of each Division.

(2) One copy of each Civil Register—(*vide* the same list) to the District Judge of each district.

(3) One copy of each Criminal Register—(*vide* the same list) to the District Magistrate of each district.

4. It would be satisfactory if the headings of Registers were printed *in English and Urdu*, but arranged for Urdu, *i.e.*, from right to left.

5. I am desired to send you a draft Circular of instructions which the Judges propose to issue on the subject, and to ask you whether it meets your wishes or not. If you desire to have any alterations made in it or additions made to it, the Judges will be glad to consider your suggestions. Your attention is particularly invited to paragraphs 3, 4, 6 and 7 of the draft, and I am to suggest that similar instructions may be issued to the Superintendent, Central Jail, so as to avoid confusion of any sort.

6. Two revised and printed copies of my letter No. 3861 of 11th October 1889 are enclosed for information.

7. An early reply is requested.

NOTIFICATION.

The 24th February 1890.

Dated Lahore, the 25th February 1890.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

Rules under Excise Act, 1881, in supersession of Rules 39 to 48 under Act X of 1871.

THE following rules under the Excise Act, 1881, having received the sanction of the Local Government, are published for information and guidance, in supersession of Rules 39 to 48, inclusive, of the liquor rules under Act X of 1871. Amended forms XIV, XV, XV A, XV B and XV C will be issued shortly. The new rules are to come into operation for the purposes of the licensing arrangements of the financial year 1890-91; and immediate steps should be taken to make the purport of them widely known.

By order, &c.,

D. C. JOHNSTONE,

(*Translated.*) *Junior Secretary to Financial Commissioner, Punjab.*

RULE.

39. Licenses for the wholesale vend of spirituous liquors passed from distilleries in India worked according to the European method of fermented liquors manufactured at a licensed brewery, and of spirituous or fermented liquors imported either by land or sea, shall be granted by the Deputy Commissioner of the district, or in a cantonment by the Superintendent of Abkári for the cantonment, on payment of a fee of Rs. 48 for the official year, or Rs. 15 per quarter of a year. Licenses restricted to cover the wholesale vend of (1) spirituous liquors including rum passed from distilleries in India worked according to the European method or (2) fermented; liquors whether manufactured at a licensed brewery or imported by land or sea may, at the discretion of the Deputy Commissioner, or in a cantonment of the Superintendent of Abkári for the cantonment, be granted at half the above rate, *i. e.*, Rs. 24 for the year, or Rs. 8 per quarter.

40. Licenses granted under the preceding rule shall be in the form prescribed (No. XIV). The place of vend mentioned in the license may, with the consent of the Deputy Commissioner, or of the Cantonment Superintendent, of Abkári, be altered to any other place within the jurisdiction of such officer.

41. Licenses for the retail vend of fermented liquors manufactured at a licensed brewery, and of spirituous or fermented liquors imported either by land or sea (except rum) may be granted by the Deputy Commissioner of the district, or in a cantonment by the Superintendent of Abkári; and the fees payable for such licenses shall be fixed in the manner laid down in the following rules. These licenses are of two classes—

(*a*) Shop licenses.

(*b*) Hotel and refreshment-room licenses.

42. Except when a different arrangement is made under the rule next following, the Deputy Commissioner shall determine before the close of each official year the number and locality of the shops for which licenses will be granted during the coming year; and when the number and locality of the shops have been so fixed, and the licenses disposed of, no fresh shops shall be licensed within the year for which the licenses run at such a locality that it would interfere prejudicially with the dealings of any of the existing shops.

When the number and locality of the shops have been fixed, the license fee to be paid for each shop shall be determined by public auction or by tender.

The license for each shop should be put up to auction separately, and the Deputy Commissioner will ordinarily accept the highest offer made; but he is not bound to do so, and he should not accept a bid where it appears that the object of the person wishing to secure the license is merely to obtain a monopoly of the retail vend of the various classes of spirits. The license granted for each shop shall be in the prescribed form and will cover sale for consumption on and off the premises. (No. XV.)

43. In cantonments and in large civil stations or other localities where in the opinion of the Deputy Commissioner the arrangements described in the preceding rule cannot conveniently be carried out, the Superintendent of Abkári, or the Deputy Commissioner, as the case may be, may, instead of putting the licenses up to auction, grant licenses subject to the payment of fixed fees according to the annexed scale. Where this system of licenses is in force, it is not necessary that the number of shops to be licensed should be laid down beforehand, and fresh licenses may be granted during the course of the year :—

Description of license.	Amount of fee — For the whole year.		By the quarter.
		Rs.	Rs.
(1) For consumption off the premises only	1st class ...	... 500	130
	2nd class ...	... 300	80
	3rd class ...	... 200	60
(2) For consumption on or off the premises	1st class ...	... 500	130
	2nd class ...	... 300	80

44. Hotel and refreshment-room licenses may be granted by the Deputy Commissioner, or in a Cantonment by the Superintendent of Abkári, subject to the payment of fees according to the annexed scale. The licenses shall be in the prescribed forms (Nos. XV A, and XV B) :—

Description of license.	Amount of fee — For the whole year.	Amount of fee — By the quarter.
	Rs.	Rs.
(1) For consumption on the premises only	100	30
(2) For consumption on or off the premises	300	80

When these licenses are for consumption on the premises only they shall be subject to the condition that sales shall be made only to occupants of the hotel, or, in the case of refreshment-room licenses, to *bonâ fide* travellers.

45. In the case of small hotels, or boarding-houses and of refreshment-rooms at out-of-the-way stations licenses for consumption on the premises only may be granted subject to the payment of a fee of Rs. 50 for the year, or Rs. 15 per quarter; and in special cases, with the sanction of the Commissioner of Excise, these rates may be further reduced to Rs. 25 for the year, or Rs. 8 for the quarter, where it is found that a higher rate would be prohibitive, and inconvenience to the public would result.

46. A license in the prescribed Form (No. XV A) for a retail vend of these liquors for consumption on the premises only may be granted to the person in charge of a staging bungalow, subject to the payment of a license fee of Rs. 25 for the whole year, or Rs. 8 per quarter. Such license shall be subject to the condition that sales shall be made only to occupants of the bungalow. The above rate may be further reduced by the Deputy Commissioner should he consider it too high in any case: but the fee shall not be less than Rs. 6 per annum at district or sub-divisional head-quarters, in cantonments, or at important halting places, and not less than Re. 1 per annum at unfrequented places.

47. Licenses covering the retail vend of imported rum and of all spirits (including rum) passed from distilleries in India worked according to the European method shall be granted, and the fees to be paid for such licenses shall be fixed in the manner laid down in Rule 42 above, *i, e.*, the Deputy Commissioner shall fix annually the number and locality of the shops to be licensed, and the fees to be paid for the licenses shall be determined by auction or tender. These licenses shall be in the prescribed Form (No. XV C).

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By Dr. GEO. WATT, C. I. E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable and mineral,—each product being treated after a uniform plan, the paragraphs of which give the scientific, Vernacular and European names, habitat or source, history, properties and uses, both chemical and industrial, trade statistics, markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important Vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the Vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the Vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, R6 and 8 shillings respectively, will be charged extra for the whole sets.

****No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.*

CHIEF COURT.

BOOK CIRCULAR No. II—846 G.

To

ALL JUDICIAL OFFICERS IN THE PUNJAB.

Dated Lahore, the 13*th February* 1890.

Use of country milled paper for Autograph records.

IN continuation of Book Circular No. III—760, dated the 7th February 1889, the following instructions are issued in regard to the use of country milled paper, known as *Badami,* for certain purposes, instead of "B" quality Jail made paper.

2. In paragraph 7 of Book Circular III—760 of 1889, the Judges pointed out that they contemplated applying to Government for sanction to the use of country milled paper for the autograph records of Judges and Magistrates who do not write their records in English, and for all Judicial Registers. The necessary sanction has since been received.

3. Separate orders are under issue in regard to the supply of Judicial Registers. Authority is now given to District Officers to supply country milled paper instead of "B" quality Jail made paper, to Judicial Officers who write their autograph records in vernacular and who may prefer it.

4. The Accountant-General has intimated that the country milled paper may be purchased in the local market and charged in Judicial contingent bills, provided the disbursing officers sign and append to each bill a certificate to the effect that the paper has been purchased solely for the purpose of the autograph records made by Judges and Magistrates who write in the vernacular.

By order, &c.,

Registrar.

FINANCIAL COMMISSIONER'S OFFICE.

CIRCULAR No. 19 OF 1890.

(No. 1336.)

FINANCIAL COMMISSIONER'S OFFICE,

Dated Lahore, the 1st March 1890.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

Revenue Buildings.

Paragraph 4 of Circular No. 28 of 1889, amended.

THE following instructions should be substituted for paragraph 4 of Circular No. 28 of 1889, regarding Revenue Buildings:—

4. (i). Commissioners and Deputy Commissioners should carefully note the procedure laid down in Public Works Department, Circular No. 3 of 4th January 1890, (Appendix D). It will be observed that in future lists of proposed Revenue Buildings for inclusion in future budgets are to contain proposals for two financial years instead of one as hitherto and that the date of submission of the Provincial list to Government has been fixed earlier, being now August 15th.

(ii). At as early a date as possible in each year, Commissioners are to make up their minds what Major Revenue Buildings should be constructed in their Divisions, during the following two years. For such works they should without delay apply for administrative sanction of Government, through the Financial Commissioner, in the manner prescribed in Public Works Department Circular No. 19 of 1874; and finally by 1st July they should submit to this office a list in the form appended hereto (Appendix E).

Financial Commissioner's Circular Memo. No. 7306 of 1882.

In this form though the works are to be arranged in five classes, the order of urgency, which should be carefully filled in, is to be recorded in respect of all works in the Division and not by districts nor by class of work. Only works estimated to cost over Rs. 2,500 should be included.

(iii). Ordinarily the Financial Commissioner will not, in the Provincial list he submits to Government, include any work for which the administrative sanction of Government in the Civil Department has not been obtained; but to save correspondence in the case of works that may be sanctioned after 1st July and before the Financial Commissioner forwards his list to Government, Commissioners should enter in their lists, besides works actually sanctioned, (*a*) projects for which they have solicited sanction and which may be still under consideration by the Financial Commissioner or by Government; and (*b*) projects for which they are prepared to apply for sanction at a very early date.

By order, &c.,
D. C. JOHNSTONE,
Junior Secretary to Financial Commissioner, Punjab.

Proceedings of the Honorable the Lieutenant-Governor of the Punjab in the Financial Department, No. 675, dated 7th June 1872.

Punjab Government, Public Works Department Circular No. 26, dated 27th June 1872.

Ditto ditto ditto Circular No. 19, dated 27th July 1874.

THE references above quoted define the procedure in respect to the Lists of Proposals for works "in the order of their urgency" to be included in the Provincial Public Works Budget Estimates. They also specify that detailed plans and estimates are not to be prepared "until the general approval of Government" to any Major Work "has been accorded."

2. Upon this List of Proposals for each district a dicision by the Lieutenant-Governor, in consultation with Heads of Departments, will be made "during the month of September on the works to be undertaken during the next financial year, so that the Public Works Department may prepare detailed plans and estimates of sanctioned works before the preparation of the Public Works Budget of the following year."

3. With a view to secure formal sanction in advance of provision of funds in the Public Works Budget Estimates, and to avoid the preparation of plans, &c., for a work which may have to be indefinitely deferred, His Honor the Lieutenant-Governor considers that the lists should include proposals for two financial years.

4. His Honor the Lieutenant-Governor further desires that Heads of Departments should submit their Lists of Proposals of new Major Works for two years on or before the 15th August, through the Secretary, Civil Department, to the Lieutenant-Governor. On these Lists of Proposals, His Honor the Lieutenant-Governor will give administrative sanction to items approved, and not already so sanctioned. The Lists of Works to which administrative sanction has been given as above, should be submitted by the Secretary, Civil Department, at a Budget Conference,* to be held in September, when the order of urgency of the several works can be settled, with the probable allotment to each Department. The Budget will then be prepared by the Public Works Department accordingly, and the preparation of detailed plans and estimates will be undertaken, where not already completed.

*His Honor the Lieutenant-Governor.
Secretary to Government, Punjab.
Secretary to Government, P. W. D.

5. Officers of the Public Works Department will, under Punjab Government, Public Works Department Circular No. 26, of 27th June 1872, continue to bring forward proposals for all works that do not directly belong to any of the other Departments, and these will also be considered at the Budget Conference.

6. A sample form of the List of Original Major Works sanctioned for inclusion in the Public Works Budget Estimates, referred to in para. 3, is annexed for information.

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By Dr. GEO. WATT, C. I. E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable and mineral,—each product being treated after a uniform plan, the paragraphs of which give the scientific, Vernacular and European names, habitat or source, history, properties and uses, both chemical and industrial, trade statistics, markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important Vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the Vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the Vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, R6 and 8 shillings, respectively, will be charged extra for the whole sets.

*** *No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.*

CIRCULAR No. 20 OF 1890.

FINANCIAL COMMISSIONER'S OFFICE,

(No. 1535).

Dated Lahore, 10th March 1890.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS

IN THE PUNJAB.

Amended Rule XXXVIII, Circular No. 3 of 1889.

THE following amended rule regarding the restoration of land acquired by Government is circulated for information and guidance in supersession of the amended rules in Circular No. 17 of 1889. It will be seen that an important alteration has been made in rules (2) and (3):—

Rule XXXVIII.

(1). Land that has been compulsorily acquired for public purposes or by action under Chapter VII of the Land Acquisition Act for the purposes of a Company, when no longer required for such purpose, will be leased or sold by the Collector in accordance with the following instructions.

(2). Unless it be otherwise specially ordered by Government, land of this description shall be restored to the owners from whom it was acquired or their representatives, if such can be traced. The letter of Government, No. 1 of 7th January 1890,—Appendix XII—explains the principles on which the terms of restoration are to be arrived at. The basis of these terms is the price paid by Government when acquiring the land. If the land has deteriorated for purposes of agriculture since acquisition, the sum to be demanded of the owners must be equitably less than the sum paid by Government. If the land is for purposes of agriculture no worse and no better than it was when acquired, the demand on restoration should be measured by the amount paid originally by Government. If the land has actually been improved for purposes of agriculture during the Government's occupation, an equitable and proportionate increase may, in framing the Government demand, be made upon the price paid originally by Government. In no case is a rise in the value of the land from causes other than direct improvement of the soil for agriculture to be made a reason for demanding a price higher than that paid originally by Government.

(3). If the estate from which the land was originally acquired no longer exists, or if the owners of the land refuse to accept the terms fixed by the Collector, the land may be sold by auction or otherwise dealt with as may appear advisable. In every such case the Collector shall report for the orders of the Financial Commissioner, through the Commissioner, the manner in which he proposes to deal with the land, and the terms, if any, which have been offered to the owners; and the case shall be dealt with in accordance with the orders passed by the Financial Commissioner on the Collector's report. The Department by which the land is given up is not, either in a case under Rule 2 or under this Rule, concerned with the price to be demanded or the acceptance of any bid or tender, that being a matter solely for the decision of the Collector of the District.

(4). In every case, whether the terms offered are accepted or not, the Collector should report for the orders of the Financial Commissioner in the form given in Appendix XIII the assessment which he proposes to impose on the land under Section 59 of the Land Revenue Act (Rules 64 and 65 of Part II of the Rules under that Act).

(5). Sums realized by the lease or sale of lands in accordance with these instructions will be credited by the Collector to the Department on account of which they were acquired.

(6). Collectors are directed to bring to the notice of the Financial Commissioner any case in which land previously occupied for public purposes is restored by the public officer or by the Company in charge thereof otherwise than in the manner prescribed in these orders.

By order, &c.,

D. C. JOHNSTONE,

(Translated.) *Junior Secretary to Financial Commissioner, Punjab.*

APPENDIX XII.

No. 1, dated 7th January 1890.

From—H. C. FANSHAWE, Esquire, Junior Secretary to Government, Punjab.

To—The Junior Secretary to Financial Commissioner, Punjab.

I AM directed to acknowledge the receipt of your letter No. 801 of 20th November last, and in reply to convey the following observations of the Lieutenant-Governor upon the question of the price for which lands acquired by Government should be restored to the persons from whom they were acquired.

2. The intention of the orders issued during the past year is certainly that the land to be restored should be given back to the original owners at a price not exceeding that which was paid to them for it, unless the land has been specially improved for agricultural purposes while in the possession of Government. The mere fact that canal irrigation has been rendered possible is not, however, such an improvement as is contemplated by the above exception, though the filling up of a swamp would be, or the rare case of the conversion of waste land into a garden. The Lieutenant-Governor does not think that the general rise in the value of land since the area to be returned was acquired is any reason for demanding a higher price than that paid to the original owners. It is notorious that the compensation paid never really compensates these owners for the loss of their lands; and during the whole time that these are lost to them they also lose the increase in the value of the produce of the land and of the land itself. In most cases the land restored will be found to have deteriorated for agricultural purposes since its acquisition, and in these circumstances a corresponding reduction should be made in the price for which the land is given back to the original owners. The department by which the land in question is given up is not concerned with the question of the price for which this is done, that being a matter solely for the decision of the Collector of the District.

APPENDIX XIII.

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C. I. E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable and mineral,—each product being treated after a uniform plan, the paragraphs of which give the scientific, Vernacular and European names, habitat or source, history, properties and uses, both chemical and industrial, trade statistics, markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important Vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the Vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the Vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance,* for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, R6 and 8 shillings, respectively, will be charged extra for the whole sets.

*** *No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.*

Notice.

THE attention of persons proposing to make a pilgrimage to the Hedjaz is invited to the following warning.

Her Majesty's Consul at Jeddah has brought to the notice of the Government of India the fact of the arrival of a large number of pauper Indian pilgrims by the S. S. *Deccan* eight or nine months before the Hadj, at a time when the Hedjaz, the land of the pilgrimage, is, owing to the drought which has prevailed for the last three years, unable to support its own inhabitants. He has observed that there are already five or six hundred poor Indian pilgrims, the remnants of the last Hadj besides the six hundred who have arrived by the *Deccan*, wandering about the streets of Jeddah and suffering from disease and starvation, whom the British Indian Merchants there are trying to provide with a passage to India, and that any further influx of pauper pilgrims in the present state of the country is much to be deprecated.

As the country is unsettled and robberies are frequent, intending Indian pilgrims are warned of the above and of the famine prevailing, while pauper pilgrims are strongly advised not to proceed to Jeddah.

CIRCULAR MEMO. No. 4 OF 1890.

FINANCIAL COMMISSIONER'S OFFICE,

(No. 1657.)

Dated Lahore, 13th March 1890.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

Instructions for the preparation of the Income Tax Report, 1889-90.

THE Financial Commissioner requests that the following instructions for the preparation of the District Reports and Returns on Income Tax Operations during the year 1889-90 may be carefully followed.

2. The Returns should be dealt with as indicated in the annexed memorandum, the directions in which differ from those in Circular Memo. No. 13 of 1889.

3. In its Review of the Income Tax Report for 1888-89 the Punjab Government remarked that the assessments in the Jullundur, Ráwalpindi and Peshávar Districts were "almost certainly still too low in view of their wealth and natural advantages." It was also said that "the tax seems to be assessed with great leniency in Gurgaon, Kohát, Dera Ismail Khan and Dera Gházi Khan, and perhaps in Gurdáspur, Shahpur and Lahore." The Deputy Commissioners of all these districts should notice these criticisms in their reports for the current year.

4. Government also suggested that Karnál, Jhang, Muzaffargarh and, perhaps, Ferozepore are over-assessed The Deputy Commissioners concerned should state their opinions on this point.

5. In some districts it is believed that supplementary assessment lists were issued during the current year. Where this is so the fact should be noted in the report and the result stated.

6. In preparing the reports on the working of the Income Tax Act Deputy Commissioners will be expected to give some account of the mode in which the assessment lists for the year under report were prepared, special attention being paid to the remarks made in the last Annual Provincial Report and Review. Variations in the initial and final demands as compared with the initial and final demands of previous years should be commented upon. The extent and character of objections and appeals, the agency by which they have been disposed of, and the mode in which they have been investigated should be described. The way in which the penal provisions of the Act have been applied should be specially noticed, and attention should also be paid to the following points, *viz*, the statistics of large towns in regard to the incidence of the tax, particulars as to European and other tax-payers in large Civil Stations and Military Cantonments, and the state of the balances. Estimates of the probable amount of the assessments and of the probable amount of the final demand under all the Parts for the ensuing year should be given. With regard to objections it should be clearly stated how many were heard by Deputy Commissioner and how many by other officers, and also how many were (*i*) wholly successful, (*ii*) partially successful, (*iii*) rejected. Urban and rural incidence of the tax *per mille* of the population under all the Parts should be noted.

7. When Return III has been carefully prepared as directed below a copy of it should be *at once* despatched to the Accountant-General's Office for favour of verification. Any discrepancy noted by the Accountant-General should be then cleared up and the Return should be corrected and ready for use by this office before the date prescribed for submission to this office (15th May).

8. No Divisional reports are required. As each District report is received the Commissioner should cause the figures to be checked in his office and should then forward to this office with any remarks he may wish to make.

By order, &c.,

D. C. JOHNSTONE,

(*Translated.*) *Junior Secretary to Financial Commissioner, Punjab.*

Memorandum regarding the Annual Income Tax Returns of the Punjab.

Return I.– For this the figures are procured independently of the District Offices.

Return II.—This Return shows realizations from interest on securities under Part III of the second schedule to the Act. District Officers will fill in the particulars required by columns 7 and 8, which relate to securities issued by local authorities or companies—*vide* Part III, clause (*c*), of the second schedule. They will have nothing to do with the filling in of columns 3 to 6, the figures for which will be supplied by the Accountant-General. Attention is drawn to this as mistakes were made in this matter last year.

Return III.—(*i*). Columns 3 and 4 are not to be filled up in District Offices, and column 13 is to correspond to column 8, Return II.

(*ii*). Return III is to show total collections during the year under report whether on account of that year or of previous or succeeding years. In the columns up to 20 inclusive—subject to (*i*) above—all receipts should be shown whether refunds have been subsequently made under Chapter IV of the Act or otherwise. Sums received on account of other districts should be included in Return III of the district *where the payment is actually made*, and *not* in Return III of the district on account of which it was made. It follows that column 20 should show a total in complete accordance with the figures of the Accounts Department.

(*iii*). Column 21 (Refunds) should similarly include all refunds actually made during the year under report whether on account of that year or of previous years, and whether made under Chapter IV of the Act, or Section 33, or otherwise. The total of the column should therefore agree with the figure of refunds in the books of the Accountant-General.

(*iv*). Return III as originally prescribed had no column for miscellaneous receipts, though the Accountant-General has an entry of this kind in his books. A column for these receipts (No. 19a) has now been added; and the heading of column 20 must be "total of columns 17, 18, 19 and 19a."

Return IV.—(*i*). The entries by Deputy Commissioners in this Return under Part I should not include deductions from salaries, pensions, annuities and gratuities paid by Government, but only from those paid by local authorities, companies, public bodies, associations and private employers.

(*ii*) The entry opposite Part III should show only the tax on interest on securities of local authorities or companies—see column 8, Return II—and should not include tax on interest on Government securities. Columns 2, 4, 6 and 8 opposite Part III may be left blank.

(*iii*). For the Return generally the following directions should be very carefully followed :—

(*a*). Fill up columns 3, 5 and 7 throughout.

(*b*). Treat the return as an *administrative* one, "Demand" means demand *on account of the year under report* only. Collections, if any, in the previous year on account of the year under report should be included. Demand under all heads on account of previous years, and collections under all heads during the year under report on account of previous years, should be shown only in columns 14 and 19 respectively. Collections during the year under report on account of the ensuing year should be entirely excluded; as also should sums collected and afterwards *during the year* refunded. Sums collected in one district on account of another are to be included in Return IV of the district *on account of which* the collection was made, and *not* in Return IV of the district in which the collection was made.

(*c*). Column 15 should equal column 20 + column 21; or an explanation of the discrepancy should be given. Column 21 should show only *recoverable balances.*

(*d*). It follows that the totals of column 22, Return III, will in most districts differ from the total of column 20 of Return IV. The difference, if any, should be fully explained in a + – account in the "Remarks" column of Return IV.

(*iv*). As in the case of Return III, this Return should show miscellaneous receipts. Columns 13a and 18a have been added for this purpose, the first for demand and the second for collections. The proper heading of column 15 is therefore "total of columns 9, 11, 13, 13a and 14."

Return V.—This is also an administrative Return. No entries should be made by Deputy Commissioners on account of salaries, &c., paid by Government. Columns for Grand Total opposite "Abstract I Salaries—others" should correspond to the figures in columns 8 and 9, Return IV, opposite Part I, columns for Grand Total opposite "Abstract II, Companies" should correspond to columns 8 and 9, Return IV, opposite Part II, columns for Grand Total opposite "Abstract IV, Other sources" should correspond to columns 8 and 9, Return IV, opposite Part IV.

Return VI.—This Return shows the expenditure and presents no difficulties. It should include the pay and deputation allowances of officers on special duty, and the pay of District, Tahsil and Cantonment Muharrirs. Travelling allowance should not be debited to income tax expenditure unless an officer goes into camp for the sole purpose of the administration of the income tax. The charges for country paper, lithography, &c., for income tax need not be kept separately from the general district expenditure under these heads, nor need they be shown in this Return.

N.B.—In the Returns too generally only whole rupees should be entered. Fractions of a rupee less than eight annas should be neglected, eight annas or more being counted as a whole rupee.

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C. I. E.,
Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable and mineral,—each product being treated after a uniform plan, the paragraphs of which give the scientific, Vernacular and European names, habitat or source, history, properties and uses, both chemical and industrial, trade statistics, markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important Vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the Vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 6?9 pages; Volume III is in course of preparation, and will contain the letters D, E, F and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the Vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, R6 and 8 shillings, respectively, will be charged extra for the whole sets.

*** *No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.*

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C. I. E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable and mineral,—each product being treated after a uniform plan, the paragraphs of which give the scientific, Vernacular and European names, habitat or source, history, properties and uses, both chemical and industrial, trade statistics, markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important Vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the Vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the Vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, R6 and 8 shillings, respectively, will be charged extra for the whole sets.

*** *No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.*

FINANCIAL COMMISSIONER'S OFFICE.

CIRCULAR No. 24 OF 1890.

FINANCIAL COMMISSIONER'S OFFICE,

(No. 2010).

Dated Lahore, the 26th March 1890.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

In proposing reduction in the number of Lambardárs the claims of heirs must be stated.

IT is provided in Section 30 (1) of Part II of the rules under the Land Revenue Act that the number of headmen in an estate shall not be reduced except by the order of the Financial Commissioner. The fact that the number of Lambardárs is considered excessive is not included in Section 32 (*iii*) among the grounds on which an existing incumbent may be dismissed. It follows that a proposal for the reduction of a Lambardár's office should only be made when it is actually vacant. The fact that a Collector considers that the number of headmen in an estate could be reduced with advantage by refraining from filling up a vacant post does not absolve him from the duty of considering the claims of heirs within the degree prescribed in Section 34 (1 *a*), and these should always be stated in submitting proposals for reduction.

By order, &c.,

J. M. DOUIE,

Senior Secretary to Financial Commissioner, Punjab.

2. The Financial Commissioner requests all Deputy Commissioners to devote their special attention to the due recovery of these loans and the submission by due date of complete and correct statements regarding them.

3. The statements should be prepared at once and forwarded to the Accountant-General for verification with a request that they may be returned to the Deputy Commissioner without delay. REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By Dr. GEO. WATT, C. I. E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable and mineral,—each product being treated after a uniform plan, the paragraphs of which give the scientific, Vernacular and European names, habitat or source, history, properties and uses, both chemical and industrial, trade statistics, markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important Vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the Vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the Vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, R6 and 8 shillings respectively, will be charged extra for the whole sets.

**** No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.*

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By Dr. GEO. WATT, C. I. E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable and mineral,—each product being treated after a uniform plan, the paragraphs of which give the Scientific, Vernacular and European names, habitat or source, history, properties and uses, both chemical and industrial, trade statistics, markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important Vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the Vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 519 royal pages; Volume II embraces the letter C in [illegible] pages; Volume III is in course of preparation, and will contain the letters D, E, F and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the Vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 3 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively, will be charged extra for the whole sets.

*** *No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 5 guineas in England, exclusive of packing and postage.*

Notice.

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By Dr. GEO. WATT, C. I. E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable and mineral,—each product being treated after a uniform plan, the paragraphs of which give the Scientific, Vernacular and European names, habitat or source, history, properties and uses, both chemical and industrial, trade statistics, markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important Vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the Vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 659 pages; Volume III is in course of preparation, and will contain the letters D, E, F and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the Vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

*** *No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.*

LAHORE, THURSDAY, MAY 22, 1890.

PART III.

Notifications by Chief Court, Financial Commissioner, Accountant-General, &c.

FINANCIAL COMMISSIONER'S OFFICE.

CIRCULAR No. 27 OF 1890.

FINANCIAL COMMISSIONER'S OFFICE,

(No. 3120.)

Dated Lahore, the 19th May 1890.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

Certain rules and appendices under the Land Improvement Loans Act XIX of 1883 and Agriculturists Loans Act XII of 1884 amended.

THE following portions of Circular No. 36 of 1889, should be considered cancelled, the amended paras. and appendices given below being substituted for them, *viz.*, Part II, Rules 22, 23 and 24; and Appendices XIII and XIV. The fact of this substitution should be carefully noted in all copies of the Circular in question.

By order, &c.,

D. C. JOHNSTONE,

Junior Secretary to Financial Commissioner, Punjab.

(Translated.)

RULE.

Rule 22.—A copy of books IX and X will be kept by the District Revenue Accountant (Sadr Wasil Baki Navis) at district head-quarters. His copies will be written up at the end of each quarter. To this end, in the case of the first three quarters of the financial year, each Tahsíldár will send to the Sadr, on the day on which the Treasury Accounts of his tahsíl for that month are closed, true extracts—

(*a*) in the case of the first quarter of the year, of all entries made in the ledgers (IX) and the kist-bandis (X) from 1st April to date ;

(*b*) in the case of the 2nd and 3rd quarters, of all entries made in those books since the closing of the monthly Treasury Accounts of the last month of the previous quarter.

In the case of the last quarter of the year each Tahsíldár will in March send up his books IX and X to the Sadr.

The District Revenue Accountant will complete his coipes of those books at the end of each of the first three quarters from the extracts aforesaid, and at the end of the year (in March) from the original books. While doing so, he will ascertain whether all collections have been duly credited to the ledger concerned.

In March no advances should be made except under urgent necessity. The tahsíl books should be kept at district head-quarters as short a time as possible, and should all be returned to tahsíls by 1st April.

Rule 23.—It will be observed that the monthly accounts show all payments in lump sums without distinguishing between principal and interest. It remains to explain how those portions of the instalments which consist of interest are brought under their proper head in the Treasury Accounts.

In consequence of the orders of the Government of India regarding check upon net out-goings it is necessary that this should be done at the end of every quarter. As soon as possible after the close of each quarter the Accountant-General will forward to the Deputy Commissioner of each district in which any repayments of loans have occurred during that quarter a Return in the form of Appendix XIV of this Circular. The Accountant-General will fill up only Columns 2 to 6 (both inclusive) and Column 12 (total repayments) and it will be for the Deputy Commissioner to enter in Columns 7 to 11 (both inclusive) and in Column 13 the portion of the repayments that consists of interest, and to send back the form so completed to the Accountant-General.

In the case of the quarter ending 31st March, the Accountant-General will fill up the Columns 2 to 6 for January and February only, and will send the statement to Deputy Commissioners in March. Deputy Commissioners will themselves enter the figures for March in all the columns and return the statement to Accountant-General as early in April as possible. That officer will then credit the sums paid during the past quarter on account of interest as a Provincial Receipt under "XII Interest" and direct the Treasury Officer to make an equivalent correction in the balance of the Loan Accounts. The correction will be made by adding to the balance due a sum equal to that credited under the head Interest. The amount of interest payable to Imperial will be adjusted by the Accountant-General in the same manner as the interest chargeable to Provincial Revenues on account of capital expenditure on Railways and Irrigation Works is adjusted : this does not concern Deputy Commissioners.

Rule 24.—The fact that it will be necessary to state in Columns 7 to 11 of Appendix XIV the interest collected during the quarter should be borne in mind by the District Revenue Accountant when he is copying and checking the ledger accounts, as prescribed in paragraph 22. It will be necessary for him to make out a list of all instalments paid during the quarter and by reference to the instalment tables to ascertain how much of each instalment was on account of interest.

[There should usually be no differences except the one below mentioned. But if any others are discovered, the cause should be explained. The interest items will always cause some disagreement between the last entry in Part A and the last entry in Part D; *e.g.*, if in the quarter ending 31st March 1888 the sum collected as interest is Rs. 1,200, under paragraph 23 of this Part this will not be transferred to Revenue until after the end of the quarter. Consequently on the 31st March 1888 the total outstandings shown in Part D will exceed the last entry in Part A by Rs. 1,200.]

CHIEF COURT.

NOTIFICATION.

The 26th May 1890.

No. 2565 *G.—Notification.*—It is hereby notified that Mr. J. G. Bagram, Barrister-at Law, has been admitted by the Chief Court of the Punjab as an advocate, and has been duly enrolled in the Court's Register of Advocates.

By order, &c.,

FINANCIAL COMMISSIONER'S OFFICE.

CIRCULAR No. 28 OF 1890.

FINANCIAL COMMISSIONER'S OFFICE,

(No. 3232).

Dated Lahore, the 23rd May 1890.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS

IN THE PUNJAB.

Persons for appointment as District Kánúngos and candidates for employment in District and Divisional Offices must know English.

IN accordance with instructions received from Government, the Financial Commissioners have had under their consideration the question whether any measures could be taken to reduce the time and labour spent in preparing periodical returns in District Offices. Attention was especially directed to the labour involved in compiling the 17 English statements prescribed for submission with Part I of the Land Revenue Report and the 14 English registers, corresponding to numbers IV to XVII of these statements prescribed in Circular 38 of 1885.

2. The entries in most of these 17 statements are based upon those in the Vernacular registers kept up by the District Kánúngo under rules 130 and 131 of Part I of the rules under the Land Revenue Act. The English returns are not mere transcripts of the Kánúngo's Vernacular registers, one main difference being that the latter give areas according to Local and the former according to English measures. At present the system usually followed is that the District Kánúngo prepares the 17 annual statements in Vernacular, and these are translated in the English Office.

3. To remedy the waste of time and labour involved in the system by which these and other periodical returns are first compiled in the Vernacular and then translated, the Financial Commissioners proposed that:—

(a) In future no person should be appointed District Kánúngo who cannot himself prepare in English the 17 annual returns required for Part I of the Land Revenue Report on the English forms issued for the purpose, and write up neatly the 14 English registers prescribed in Circular No. 38 of 1885.

(b) All candidates for posts in District and Divisional Offices, the incumbents of which have to deal with periodical statements connected with the Revenue and Agricultural Reports, should be required to possess a knowledge of English sufficient to enable them to read the headings of English returns and to make entries in them in English figures.

4. These proposals have received the approval of His Honor the Lieutenant-Governor and the rules embodied in them should be carried out in the case of all future appointments.

By order, &c.,

J. M. DOUIE,

(*Translated*). *Senior Secretary to Financial Commissioner, Punjab.*

CIRCULAR No. 29 OF 1890.

FINANCIAL COMMISSIONER'S OFFICE,

Dated Lahore, the 23rd May 1890.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

Monograph on Fibrous Manufactures, Punjab.

The subject chosen for the next of the Annual Monographs on the industries of the Punjab is Fibrous Manufactures, *vide* Class VIII in Mr. Baden-Powell's Book on Punjab Manufactures. The note by Mr. Kipling, which is appended, should also be studied, and the instructions given below should be carefully followed.

2. *Statistics.*—In connection with this part of the subject, paragraph 3 of Circular No. 15 of 1888 should be considered as repeated *mutatis mutandis*. Statistics regarding jail industries should, however, be given separately.

3. *Classification.*—For the purposes of the report it will probably be found best to adhere to Mr. Baden-Powell's classification, *viz.*, I Fibrous Fabrics (excluding cotton, silk and wood), II Paper, III Fibrous Manufactures. The first class is a small one, but where possible an account should be given of any experiments that may have been made.

As to paper-making, the jail industries should be described and an account should be given of past experiments made with new fibres and suggestions for improvement of local paper-making industries. III should include not only manufactures consisting solely of fibres, but should also include articles in the construction of which fibres are largely employed.

4. Deputy Commissioners should send in their reports by 1st December 1890 to Commissioners, who should, if possible, forward with remarks to this office on or before December 15th.

By order, &c.,

D. C. JOHNSTONE,

Junior Secretary to Financial Commissioner, Punjab.

(Translated.)

No. 75, dated —— March 1890.

From—J. L. KIPLING, Esquire, Principal, Mayo School of Art, Lahore,

To—The Junior Secretary to Financial Commissioner, Punjab.

IN reply to your letter No. 996, dated 11th February, referring to a proposed monograph on the Fibrous Manufactures of the Province, I have the honor to state that these manufactures are in themselves insignificant and of so popular a nature that a formal enumeration seems unnecessary.

They are mainly applications of *Munj* (Saccharum munja) to a variety of rustic purposes; of patha, dwarf palm leaves (Chamærops Ritchiana) to baskets, mats, punkhas, caps, &c., with others named in the margin. Other less known fibres are used in the hills.

Khas, a grass (Anatherium muricatum).
Sunkokra (Hibiscus cannabirus), a shrub.
Alsi (Linum usitatissimum), *i.e.*, Flax.
Phalsa (Grewia asiatica), the bark of a tree or shrub.
Lasura (Cordia myxa), the bark of a tree.

In addition to indigenous growths, experiments have from time to time been tried with agave and other fibres.

Dr. Dickson of the Lahore Jail and Dr. George Ross have paid great attention to the dyeing and working of agave and of munj fibres, and could give useful information on the subject.

An enquiry into the fibres used both in and outside the Indian Jails for paper-making might be useful. Old gunny bags would seem to be the staple, but other materials may also be used. Any experiments made in Jails should be recorded in the Monograph for the information of paper-makers and specimens supplied for the Lahore Museum.

I would venture to submit that, if it is permissible to treat of fibre separated from its woody or cellular stem as a manufacture, some attempt should be made to settle the point whether *munj* and other plants can be used profitably in Anglo-Indian paper mills where English machinery is employed. At the instance of the Manager of the Bally Paper Mills, Calcutta, I made some years since an unofficial reference to the late Colonel Wace on this subject, and his opinion was that the local production was small and scarcely capable of such expansion as would make consignments on a sufficiently large scale to be worth carriage to Bengal possible. But there may be paper mills nearer than Calcutta, and it would be worth while to obtain from them a statement of their conditions, rates, &c. The production on a wholesale scale of retted fibre or of "half stuff" might be developed into a profitable industry, even though the export of raw fibre in bulk proved to be unremunerative.

Only an expert in the manufacture could give a trustworthy opinion, and I think it would be well to ask for a general statement of requirements from some practical man now in India.

There is a vast mass of discussion extant on the subject, and there are many obscure fibres from which it is vaguely stated great results may be expected. Excepting perhaps in the case of Madar (Calotropis gigantea), it seems doubtful whether the attention of those who will conduct this enquiry need be directed to this class of potential products.

If it is proposed to go behind and beyond the general definition "Fibrous Manufactures" and to treat the subject in full, the help of Dr. George Watt, C. I. E., might perhaps be asked for.

Circular Memo. No. I of 1890.	

Control of Deputy Commissioners in regard to District and Subordinate Courts.

2. It is to be observed that District Record Offices at present include the records of Civil and Criminal Courts as well as of Revenue Courts and Offices, and that so long as this arrangement continues, the entire control over the supply of copies of all Courts in the district, other than Divisional Courts and, in some cases, Small Cause Courts and Cantonment Magistrates' Courts, must remain in the hands of the Deputy Commissioner, notwithstanding the appointment in any district of another officer to be District Judge. This being so, Deputy Commissioners must remember that they are responsible to the Chief Court that proper arrangements are made to meet the convenience of litigants in the Civil Courts, and of those Courts themselves, in regard to the supply of copies; that this responsibility extends to seeing that all copies supplied are accurately copied and carefully revised and certified before being issued; and that the rules and orders of the Chief Court relating to the subject are in all respects strictly observed. In their capacity of District Magistrates, Deputy Commissioners are directly subordinate to the Chief Court in regard to the supply of copies of the records of criminal cases. Where the Deputy Commissioner is himself the District Judge, the same remark applies in respect to copies of the records of Civil cases. In districts in which an officer other than the Deputy Commissioner is appointed District Judge,

the case is somewhat different, but so long as the present Record Office system continues, Deputy Commissioners must attend to the requirements of the Civil Courts in regard to copies of their records.

Importance of duties of revising and attesting officers.

3. All officers who are authorized by the rules to attest copies, should have the importance of this duty impressed upon them. They are required themselves to compare the copy with the original and also to see that the rules and orders relating to the supply of copies have been duly complied with in all respects, before certifying to the correctness of, and affixing their signature to the former. The rules provide for their remuneration on this clear understanding, and any officer who fails to discharge this duty and permits inaccurate or defective copies to be supplied, will be severely dealt with. These instructions apply as well to copies supplied in the Vernacular as to copies supplied in the English language.

Power to withhold remuneration.

4. Power is given in the rules to reduce or withhold the remuneration of copyists or revising and attesting officers for sufficient reason; all deductions made being credited to Government.

Services of copyists who are habitually careless, &c., to be dispensed with.

5. The services of copyists who are found to be habitually careless, or who do not write neatly and legibly, or who are found to be in any way unreliable, should be at once dispensed with.

Copies may be supplied at outlying Courts under certain conditions.

6. The rules provide for arrangements being made for the supply of copies of records of Courts located at tahsíls and outposts at a distance from the head-quarters of districts. These provisions are not to be made an excuse for such Courts detaining records for long periods. Records of decided cases should be transmitted to the District Record Office not more than ten days after they have been disposed of; and this rule should be strictly observed.

Copies given should be limited to those applied for. Proviso to this rule.

7. A practice prevails in some Courts of supplying persons who apply for "a copy of the order" for purposes of appeal, with a copy of the entire proceedings in the case, instead of a copy of the judgment and decree only, which is all that the law requires the appellant to file with his petition of appeal. This practice should be put a stop to, and it should be seen that the copyists do not take advantage of the ignorance of suitors in this respect, as, to give more than the judgment and decree, except in special cases, entails needless expense upon them. Where, however, an Appellate Court has referred issues for trial to the Lower Court, under section 566 of the Civil Procedure Code, a copy of the order of remand should be supplied, as well as of the final order passed on receipt of the return to the remand.

Copy of copy not ordinarily granted.

8. A copy of a copy ought never to be granted [unless expressly asked for *as such*, as, for instance, in order to call in question the correctness of the copy granted. When in any case a copy of a copy is granted, the fact that it is so should be entered in the heading. It is not unusual for a Divisional Court to give a copy of its own record together with a copy of a copy of the record of a Lower Court which is at the time with the record of the Divisional Court, as, for example, a judgment or decree; this should not be done.

Scale of fees prescribed is a maximum scale.

9. It is to be understood that the scale of fees prescribed is intended to show the maximum rates leviable, and that a lower scale may be fixed in any district, if it is found possible to get really good copying done at cheaper rates.

Disposal of Record Office fee.

10. It will be observed that the rules provide for a charge to be made for the Record Office Fund. The amounts realized under this head should be paid into the Record Office Fund of the Court concerned, and dealt with according to the rules relating to the disposal of such funds.

By order, &c.,

(Translated.)

E. W. PARKER,

Registrar.

FINANCIAL COMMISSIONER'S OFFICE.

CIRCULAR No. 30 OF 1890.

FINANCIAL COMMISSIONER'S OFFICE,

(No. 3801.)

Dated Lahore, the 18th June 1890.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

Directs attention to the Rules under the Land Revenue Act for dismissal of landless, indebted, or incompetent lambardárs.

A CASE has recently come before the Financial Commissioners in which a lambardár embezzled revenue collected from the village proprietors and absconded. The property of the defaulting headman was attached, but its value was not sufficient to liquidate the arrears due from the estate. It was accordingly proposed to remit the balance, and in sanctioning the remission His Honor the Lieutenant-Governor has recorded the following remarks, to which the Financial Commissioners direct the attention of all Deputy Commissioners :—

" Such embezzlement is not likely to occur frequently, and one efficient means to prevent it is that provided by the Rules under the Land Revenue Act for the dismissal of landless, indebted, or incompetent headmen. These rules should be carefully enforced on all proper occasions."

By order, &c.,

J. M. DOUIE,

Senior Secretary to Financial Commissioner, Punjab.

(Translated.)

CIRCULAR No. 31 OF 1890.

FINANCIAL COMMISSIONER'S OFFICE,

(No. 3802.)

Dated Lahore, the 18th June 1890.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

Extension of measurements on the square system to di-alluvial tracts.

THE Financial Commissioner has lately had under consideration proposals for the extension of measurements on the square system to di-alluvial tracts, and the opinions of a number of officers have been taken on the subject.

The circumstances of the various tracts in the Punjab which are subject to di-alluvial action vary so much that it is not desirable that any attempt should be made to prescribe a fixed system to be followed in all cases. All the officers consulted agree that whenever re-measurements are undertaken in any tract on the square system, di-alluvial villages should be mapped on the same system, and the following brief instructions only are considered necessary :—

In all districts in which re-measurements are now proceeding or in which they may be commenced in future in connection with re-assessment operations, every village, any portion of which is subject to alluvion and diluvion, should be entirely re-measured on the square system.

A report giving details of the manner in which he proposes to carry out these instructions should in each case be submitted by the Settlement Collector, through the Commissioner of the Division, for the orders of the Financial Commissioner if the necessary orders have not been already received.

In districts into which the square system of measurements has not yet been introduced, re-measurements of di-alluvial tracts on the square system should not at present be undertaken.

But whenever, for any reason, re-measurements of villages subject to river action have to be undertaken, the square system should, if possible, be introduced after the orders of the Financial Commissioner have been taken, as in the case of districts under re-assessment.

By order, &c.,

J. M. DOUIE,

Senior Secretary to Financial Commissioner, Punjab.

CIRCULAR No. 32 OF 1890.

FINANCIAL COMMISSIONER'S OFFICE,

(No. 3919.)

Dated Lahore, the 24th June 1890.

To

ALL COMMISSIONERS IN THE PUNJAB.

Pay of Head Clerks of Commissioners' Offices fixed at Rs. 300, and personal allowances for both Head Clerks and Second Clerks reduced from 6 to 4.

THE annexed extract from Government of India, Home Department, No. 246, dated 12th April 1890, to the Punjab Government, is circulated for information and guidance, in continuation of this Office Circular No. 29 of 9th July 1889.

By order, &c.,

J. M. DOUIE,

(*Translated.*) *Senior Secretary to Financial Commissioner, Punjab.*

Extract from No. 246, dated 12th April 1890, from the Officiating Secretary to the Government of India, Home Department, to the Chief Secretary to Government, Punjab.

2. It appears that previous to the introduction of the scheme for the reorganization of the Civil Administration of the Punjab the pay proper of the Head Clerk of a Commissioner's Office was Rs. 300, and that there were six personal allowances of Rs. 50 each, given for long and approved service, four of which were granted to Head Clerks and two to Second Clerks. Besides these personal allowances there was, in some offices, an allowance given either to the Head Clerk or to the Second Clerk for performing the duties of Clerk of the Court. In the scheme sanctioned in 1884 the grant of the latter allowance was discontinued, and no orders were passed with regard to the personal allowances. It now appears that in introducing the scheme the Local Government varied the scale sanctioned by the Government of India and the Secretary of State, and granted a salary of Rs. 350 to the Head Clerks of each of the Divisions retained after the reorganization, with a personal allowance in addition of Rs. 50 to each of two of the Head Clerks and two of the Second Clerks. The Local Government now request sanction to the existing scale.

3. In reply, I am directed to say that in the circumstances explained the Governor-General in Council sanctions the continuance to present incumbents of the emoluments at present drawn by them, provided they were appointed permanently to their respective posts before the 1st April 1889, the date on which the Accountant-General's objection was taken to the extra allowances. With regard to future occupants of these posts, I am to say that the pay proper of the Head Clerk should be understood to be fixed at Rs. 300. As the number of Commissionerships has been reduced from 10 to 6 there should be a corresponding decrease in the number of personal allowances drawn by the Head and Second Clerks. For the future, therefore, His Excellency the Governor-General in Council sanctions the grant of four personal allowances of Rs. 50 each for Commissioners' Offices, the allowance being distributed between Head Clerks and Second Clerks at the discretion of the Local Government.
